Failure symptom (Connect via ROG ID)

Laptop User Center (c)

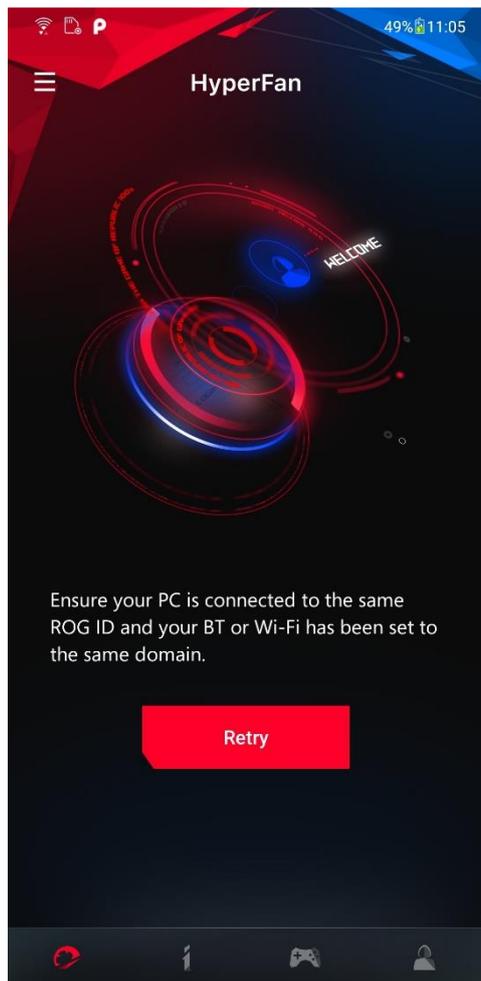

Mobile User Center (d)

When laptop and mobile device are in the same Wi-Fi environment. "Connect via ROG ID" can help user automatically establish connection between laptop and mobile device when login with same account.

1. Laptop User Center (c):
Armoury Crate User Center login page.
2. Mobile User Center (d):
iOS/Android Armoury Crate login page.

Mobile device connection fail (e)

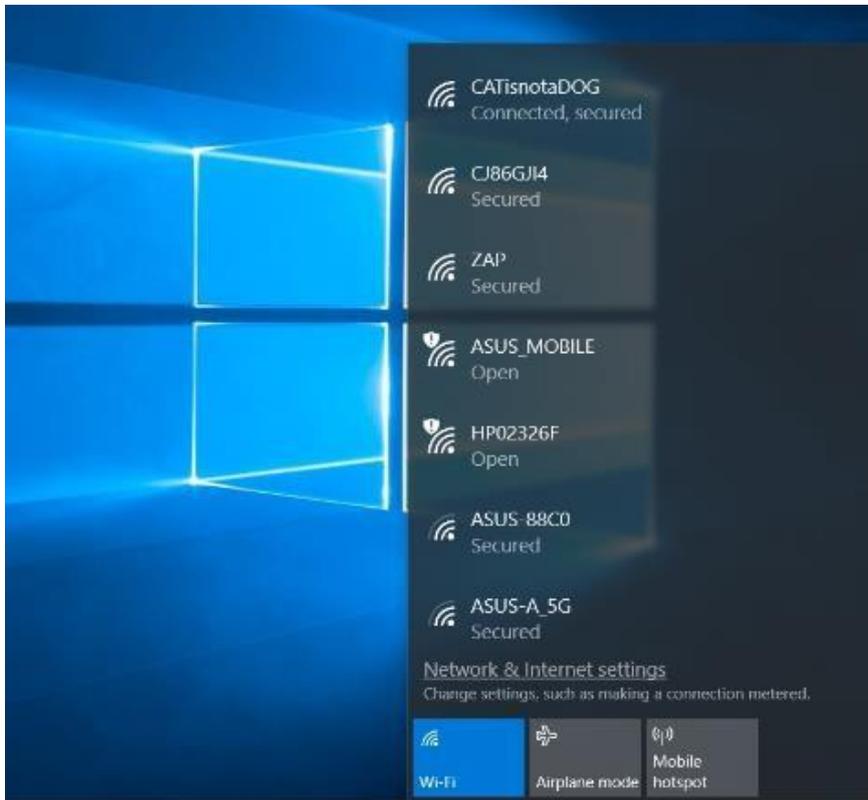

3. Mobile device connection fail (e):
User may encounter connection fail even laptop and mobile device are logged in with same account.

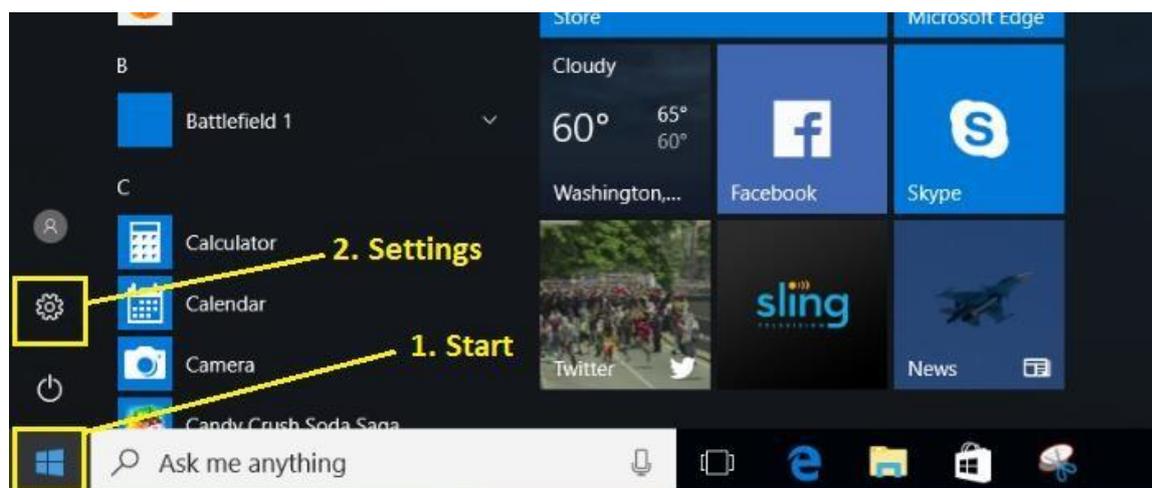

Procedures of workaround

To reduce the complex Wi-Fi environment causing mobile connection fail, we recommend to use laptop's mobile hotspot for mobile device to be connected. Follow the below steps to use laptop's mobile hotspot for connection.

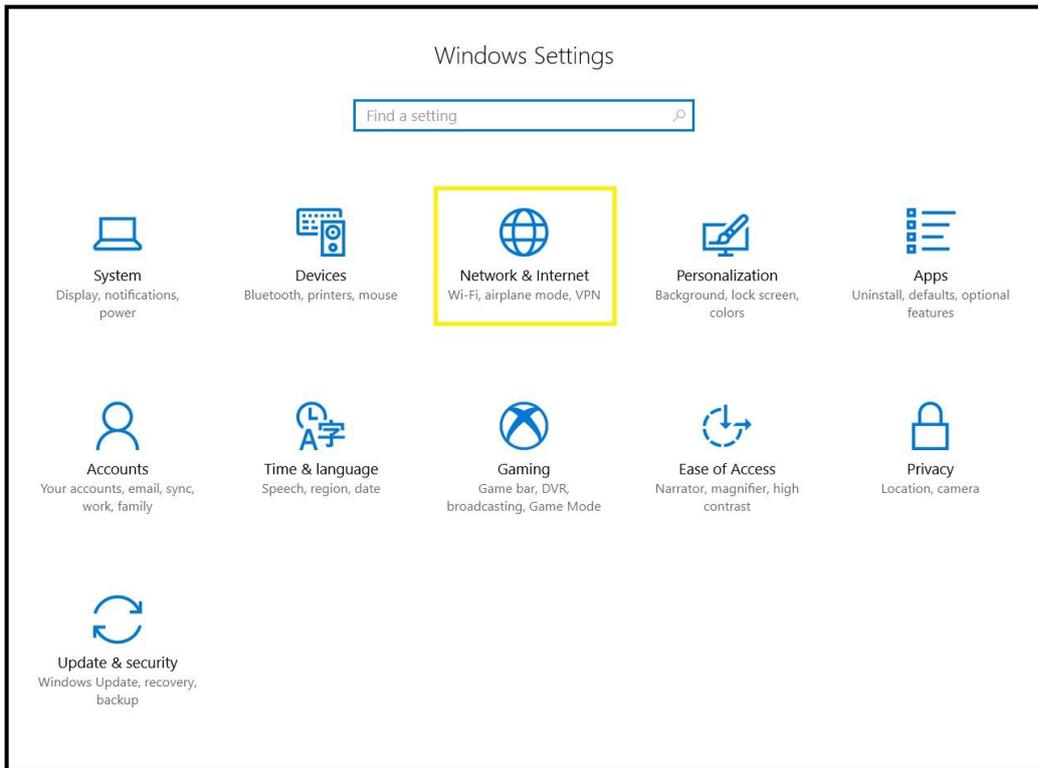

1. Make sure Wi-Fi is turned on and laptop is connected to Wi-Fi.

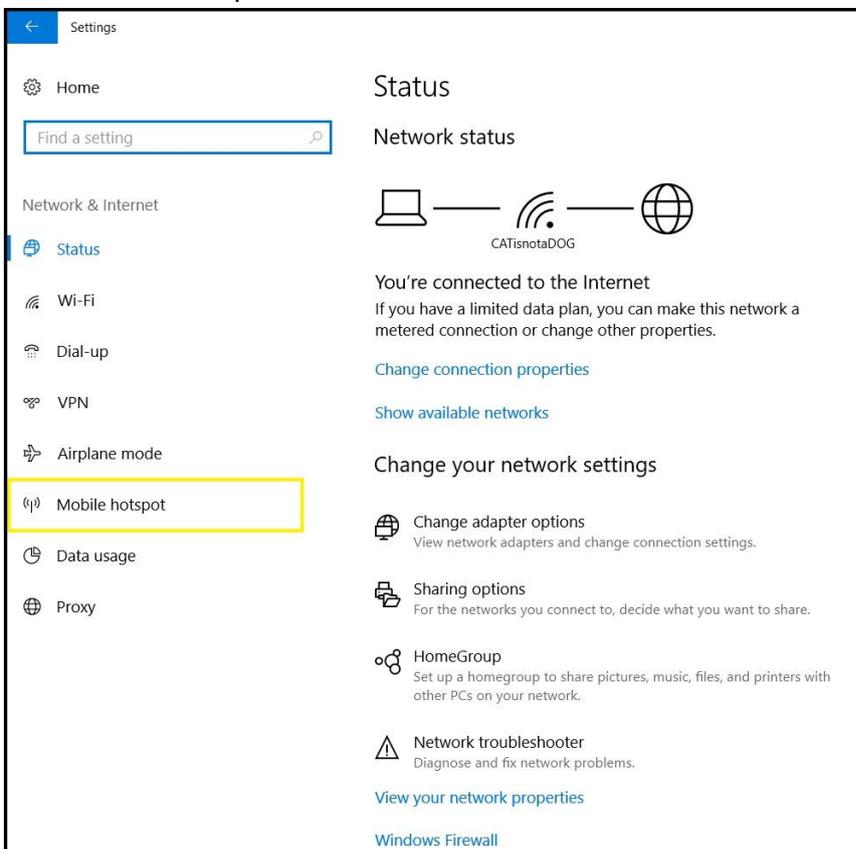

2. Click "Start" -> "Settings" to launch Windows Settings page.

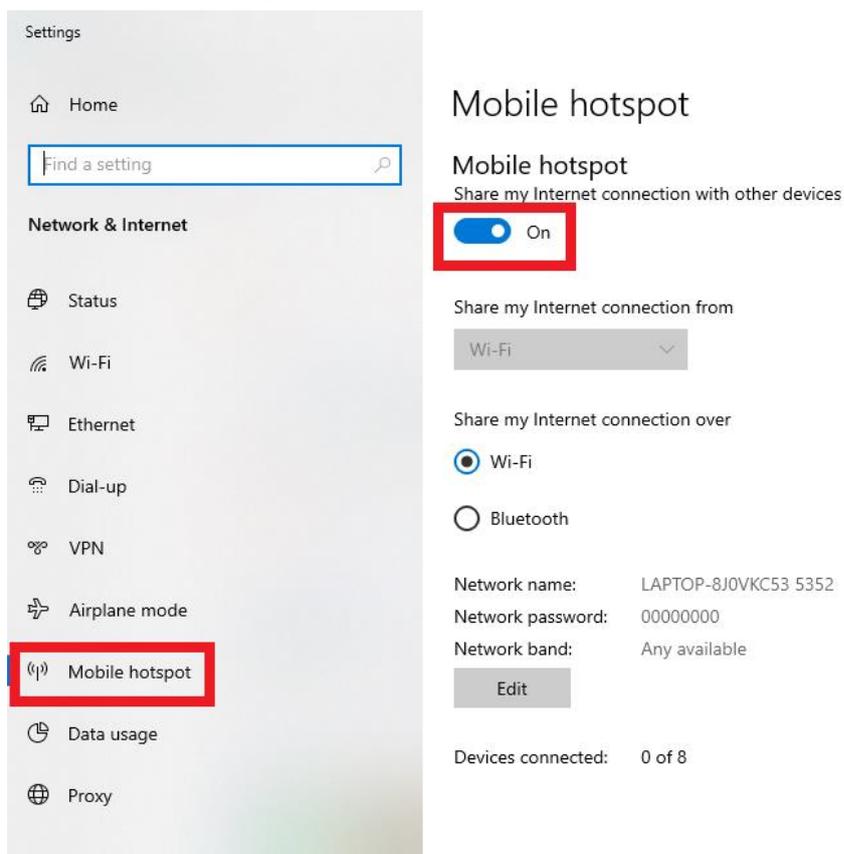

3. Click “Network & Internet” to the next settings page.

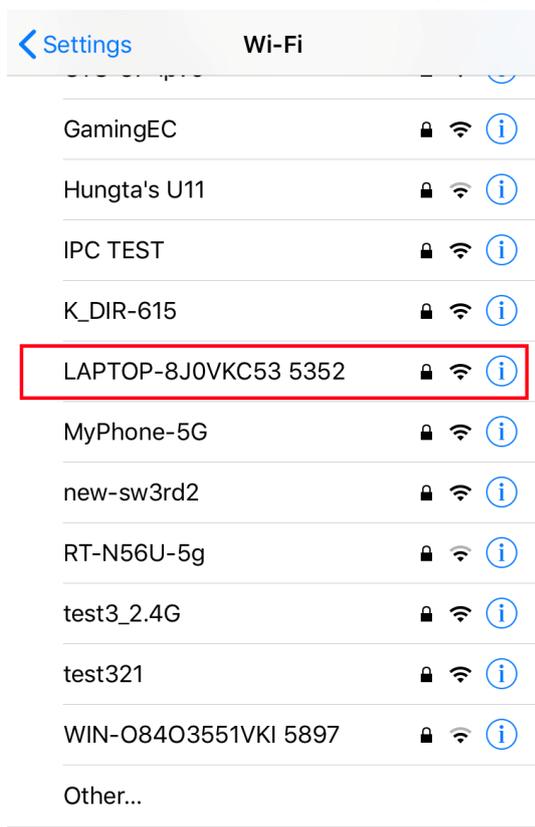

4. Click “Mobile hotspot”.

5. In Mobile hotspot page, turn on “Mobile hotspot”.

6. Mobile device is connected to Laptop’s “Mobile hotspot”.

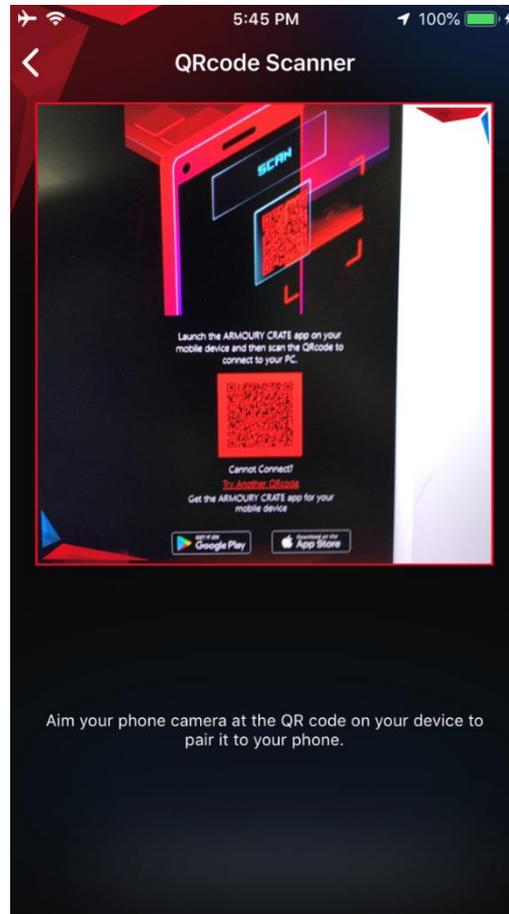

7. Launch Armoury Crate by ROG key or shortcut in “All apps” from your laptop, and also prepare your mobile device for the connection.

Laptop (f)

Mobile device (g)

1. Laptop (f):
Clicking the mobile page's connection button to establish Wi-Fi broadcast, and the QR Code means this laptop is ready to be connected.
2. Mobile device (g):
Connecting to the laptop via mobile device and this time should connect to the laptop.
