3. Upgrade SimPro Dock 2 Firmware and Driver	4
Step 1 Download One-Click Updater	4
Step 2 Connect SimPro Dock 2 to PC	4
Step 3 Execute Updater	4

1. Upgrade BIOS

Step 1 Download BIOS

Please visit [ASUS website](#), type in your model name, and download BIOS file (version 312 or above)

Step 2 Upgrade BIOS

Follow the instructions [here](#) to EZflash and upgrade your BIOS.

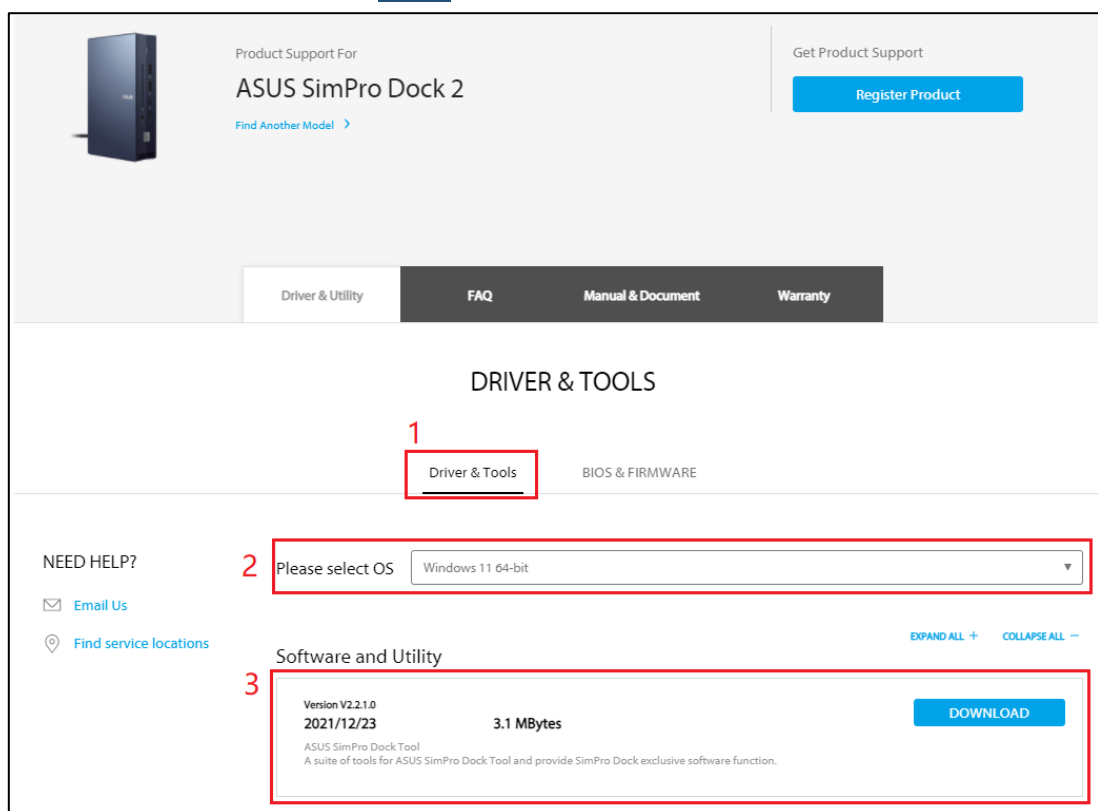

2. Upgrade “SimPro Dock Tool v2.2.3.0” Application

Step 1 Uninstall App

Go to ‘Start menu’ > type in ‘Control Panel’ > ‘Programs’ > ‘Uninstall a program’, and uninstall your old SimPro Dock Tool version.

Step 2 Download App

Download SimPro Dock Tool v2.2.3.0 [here](#).

Step 3 Install App

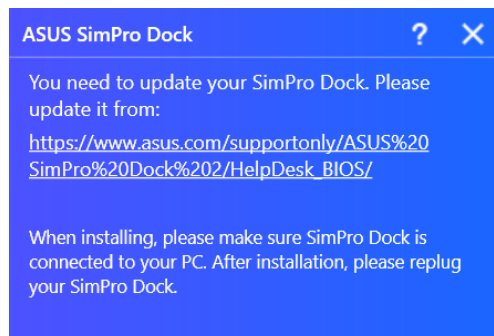

Before executing the installation, please ensure your PC battery level is above 20%. Then, unzip the downloaded file and double-click “AsSimProDockSetup.msi” to execute the installation.

CAUTION:

- Before executing the installation, please ensure your PC battery level is above 20%.
- Do NOT use your PC right now, the upgrade process will take approximately 30 seconds.
- If upgrade process fails, please try executing again.

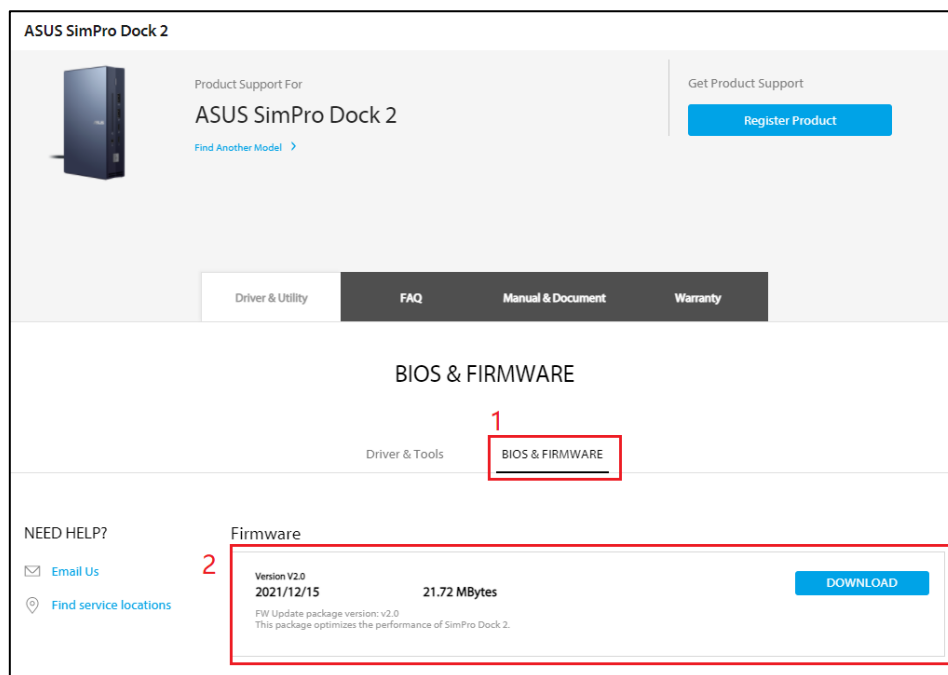

3. Upgrade SimPro Dock 2 Firmware and Driver

Connect your SimPro Dock to check SimPro Dock 2 firmware and driver version. If this message pops up, it means your dock firmware and/or LAN driver version is not compatible. Please follow the steps below to upgrade your dock firmware and LAN driver version.

Step 1 Download One-Click Updater

Click the link in the message box shown above or [ASUS website](https://www.asus.com/supportonly/ASUS%20SimPro%20Dock%202/HelpDesk_BIOS/), and download the latest one-click updater.

Step 2 Connect SimPro Dock 2 to PC

Step 2.1 Disconnect your SimPro Dock 2 from your PC.

Step 2.2 Connect your SimPro Dock 2 to your PC, without the dock power adapter.

Step 2.3 Connect your dock power adapter to your SimPro Dock 2.

*this connecting method is only required when upgrading dock firmware, it is not required when using dock functions.

Step 3 Execute Updater

Unzip the downloaded file and open the file according to your Windows OS. Double-click "ASUS_SimPro_Dock_One_Click_Updater_4.0" to execute. If upgrade process fails, please try it again.
