ASUS Recycling/Takeback Services
ASUS recycling and takeback programs come from our commitment to the highest standards for protecting our environment. We believe in providing solutions for you to be able to responsibly recycle our products, batteries, other components, as well as the packaging materials. Please go to http://csr.asus.com/english/Takeback.htm for the detailed recycling information in different regions.

REACH
Complying with the REACH (Registration, Evaluation, Authorisation, and Restriction of Chemicals) regulatory framework, we published the chemical substances in our products at ASUS REACH website at http://csr.asus.com/english/REACH.htm

Federal Communications Commission Statement
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
• This device may not cause harmful interference; and
• This device must accept any interference received including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with manufacturer's instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and receiver.
• Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
• Consult the dealer or an experienced radio/TV technician for help.

The use of shielded cables for connection of the monitor to the graphics card is required to assure compliance with FCC regulations. Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user’s authority to operate this equipment.

Lithium Battery Warning

CAUTION: Danger of explosion if battery is incorrectly replaced. Replace only with the same or equivalent type recommended by the manufacturer. Dispose of used batteries according to the manufacturer’s instructions.
Avertissement relatif aux batteries Lithium-Ion

MISE EN GARDE: Danger d’explosion si la pile n’est pas remplacée correctement. Remplacer uniquement avec une pile de type semblable ou équivalent, recommandée par le fabricant. Mettez au rebut les batteries usagées conformément aux instructions du fabricant.

Compliance Statement of Innovation, Science and Economic Development Canada (ISED)
This device complies with Innovation, Science, and Economic Development Canada licence exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device:
Operation in the band 5150–5250 MHz is only for indoor use to reduce the potential for harmful interference to co-channel mobile satellite systems.
CAN ICES-3(B)/NMB-3(B)

Déclaration de conformité de Innovation, Sciences et Développement économique Canada (ISED)
Le présent appareil est conforme aux CNR d’Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) l’appareil ne doit pas produire de brouillage, et (2) l’utilisateur de l’appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d’en compromettre le fonctionnement.
La bande 5150 – 5250 MHz est réservée uniquement pour une utilisation à l’intérieur afin de réduire les risques de brouillage préjudiciable aux systèmes de satellites mobiles utilisant les mêmes canaux.
CAN ICES-3(B)/NMB-3(B)

IC: Canadian Compliance Statement
Complies with the Canadian ICES-003 Class B specifications. This device complies with RSS 210 of Industry Canada. This Class B device meets all the requirements of the Canadian interference-causing equipment regulations.
This device complies with Industry Canada license exempt RSS standard(s). Operation is subject to the following two conditions: this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Déclaration de conformité d’Industrie Canada
Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada. Cet appareil numérique de la classe B respecte toutes les exigences du Règlement sur le matériel brouilleur du Canada.
Le présent appareil est conforme aux normes CNR d’Industrie Canada applicables aux appareils radio exempts de licence. Son utilisation est sujette aux deux conditions suivantes : (1) cet appareil ne doit pas créer d’interférences et (2) cet appareil doit tolérer tout type d’interférences, y compris celles susceptibles de provoquer un fonctionnement non souhaité de l’appareil.

Canadian Department of Communications Statement
This digital apparatus does not exceed the Class B limits for radio noise emissions from digital apparatus set out in the Radio Interference Regulations of the Canadian Department of Communications.
This class B digital apparatus complies with Canadian ICES-003.
KC: Korea Warning Statement

B급 기기 (가정용 방송통신기자재)
이 기기는 가정용(B급) 전자파해결기기로서 주로 가정에서 사용하는 것을 목적으로 하며, 모든 지역에서 사용할 수 있습니다.

*당해 무선설비는 전파혼신 가능성이 있으므로 인명안전과 관련된 서비스는 할 수 없습니다.

VCCI: Japan Compliance Statement

VCCI Class B Statement

This is a Class B product based on the standard of the VCCI Council. If this is used near a radio or television receiver, it may cause radio interference. Install and use equipment according to the instruction manual.

Equipment registered based on the confirmation measurement at the user installation site.

This is a product for which interference was measured at the present installation site and confirmed to comply with the standard of Voluntary Control Council for Interference by Information Technology Equipment (VCCI). Before using the equipment at any location other than the present installation site, the member shall measure interference for confirmation and register the result to VCCI.

RF Equipment Notices

CE: European Community Compliance Statement

The equipment complies with the RF Exposure Requirement 1999/519/EC, Council Recommendation of 12 July 1999 on the limitation of exposure of the general public to electromagnetic fields (0–300 GHz). This wireless device complies with the R&TTE Directive.

Wireless Radio Use

This device is restricted to indoor use when operating in the 5.15 to 5.25 GHz frequency band.

Exposure to Radio Frequency Energy

The radiated output power of the Wi-Fi technology is below the FCC radio frequency exposure limits. Nevertheless, it is advised to use the wireless equipment in such a manner that the potential for human contact during normal operation is minimized.
FCC Bluetooth Wireless Compliance
The antenna used with this transmitter must not be colocated or operated in conjunction with any other antenna or transmitter subject to the conditions of the FCC Grant.

Bluetooth Industry Canada Statement
This Class B device meets all requirements of the Canadian interference-causing equipment regulations.
Cet appareil numérique de la Class B respecte toutes les exigences du Règlement sur le matériel brouilleur du Canada.

BSMI: Taiwan Wireless Statement
無線設備的警告聲明
經型式認證合格之低功率射頻電機，非經許可，公司、商號或使用者均不得擅自變更射頻、加大功率或變更原設計之特性及功能，低功率射頻電機之使用不得影響飛航安全及干擾合法通信；經發現有干擾現象時，應立即停用，並改善至無干擾時方得繼續使用。前項合法通信指依電信法規定作業之無線通信。低功率射頻電機須忍受合法通信或工業、科學及醫療用電波輻射性電機設備之干擾。

於 5.25GHz 至 5.35GHz 區域內操作之無線設備的警告聲明
工作頻率 5.250 ～ 5.350GHz 該頻段限於室內使用。

방통위고시에 따른 고지사항
해당 무선설비는 운용 중 전파혼신 가능성이 있음,
이 기기는 인명안전과 관련된 서비스에 사용할 수 없습니다.

Optical Drive Safety Information
Laser Safety Information

CD-ROM Drive Safety Warning
CLASS 1 LASER PRODUCT
WARNING! To prevent exposure to the optical drive's laser, do not attempt to disassemble or repair the optical drive by yourself. For your safety, contact a professional technician for assistance.

Service warning label

WARNING! INVISIBLE LASER RADIATION WHEN OPEN. DO NOT STARE INTO BEAM OR VIEW DIRECTLY WITH OPTICAL INSTRUMENTS.

CDRH Regulations

The Center for Devices and Radiological Health (CDRH) of the U.S. Food and Drug Administration implemented regulations for laser products on August 2, 1976. These regulations apply to laser products manufactured from August 1, 1976. Compliance is mandatory for products marketed in the United States.

WARNING! Use of controls or adjustments or performance of procedures other than those specified herein or in the laser product installation guide may result in hazardous radiation exposure.

India E-Waste (Management) Rules, 2016

This product complies with the “India E-Waste (Management) Rules, 2016” and prohibits use of lead, mercury, hexavalent chromium, polybrominated biphenyls (PBBs) and polybrominated diphenyl ethers (PBDEs) in concentrations exceeding 0.1% by weight in homogenous materials and 0.01 % by weight in homogenous materials for cadmium, except for the exemptions listed in Schedule II of the Rule.
Safety information

Disconnect the AC power and peripherals before cleaning. Wipe the Desktop PC using a clean cellulose sponge or chamois cloth dampened with solution of nonabrasive detergent and a few drops of warm water then remove any extra moisture with a dry cloth.

- **DO NOT** place on uneven or unstable work surfaces. Seek servicing if the casing has been damaged.
- **DO NOT** expose to dirty or dusty environments. **DO NOT** operate during a gas leak.
- **DO NOT** place or drop objects on top and do not shove any foreign objects into the Desktop PC.
- **DO NOT** expose to strong magnetic or electrical fields.
- **DO NOT** expose to or use near liquids, rain, or moisture. **DO NOT** use the modem during electrical storms.
- Battery safety warning: **DO NOT** throw the battery in fire. **DO NOT** short circuit the contacts. **DO NOT** disassemble the battery.
- Use this product in environments with ambient temperatures between 0°C (32°F) and 40°C (104°F).
- **DO NOT** cover the vents on the Desktop PC to prevent the system from getting overheated.
- **DO NOT** use damaged power cords, accessories, or other peripherals.
- To prevent electrical shock hazard, disconnect the power cable from the electrical outlet before relocating the system.
- Seek professional assistance before using an adapter or extension cord. These devices could interrupt the grounding circuit.
- Ensure that your power supply is set to the correct voltage in your area. If you are not sure about the voltage of the electrical outlet you are using, contact your local power company.
- If the power supply is broken, do not try to fix it by yourself. Contact a qualified service technician or your retailer.

---

Hazardous moving parts. Desktop should be completely shutdown before servicing product. Replacing fan components should only be attempted by qualified service personnel.

---

**Hazardous Moving Parts Warning**

**WARNING:** Keep fingers and other body parts away from any moving parts.
Conventions used in this guide

To ensure that you perform certain tasks properly, take note of the following symbols used throughout this manual.

- **DANGER/WARNING:** Information to prevent injury to yourself when trying to complete a task.
- **CAUTION:** Information to prevent damage to the components when trying to complete a task.
- **IMPORTANT:** Instructions that you MUST follow to complete a task.
- **NOTE:** Tips and additional information to help you complete a task.

Where to find more information

Refer to the following sources for additional information and for product and software updates.

**ASUS websites**

The ASUS website provides updated information on ASUS hardware and software products. Refer to the ASUS website www.asus.com.

**ASUS Local Technical Support**

Visit ASUS website at https://www.asus.com/support/contact for the contact information of local Technical Support Engineer.

Welcome!

Thank you for purchasing the ASUS Desktop PC!
The ASUS Desktop PC provides cutting-edge performance, uncompromised reliability, and user-centric utilities. All these values are encapsulated in a stunningly futuristic and stylish system casing.

Read the ASUS Warranty Card before setting up your ASUS Desktop PC.

Getting to know your computer

Illustrations are for reference only. The ports, their locations and the chassis color vary with different models.
1. **USB 3.1 gen1 port.** The Universal Serial Bus 3.1 gen1 (USB 3.1 gen1) port connects to USB 3.1 gen1 devices such as a mouse, printer, scanner, camera, PDA, and others.

   - **DO NOT** connect a keyboard / mouse to any USB 3.1 gen1 port when installing Windows® operating system.
   - Due to USB 3.1 gen1 controller limitations, USB 3.1 gen1 devices can only be used under a Windows® OS environment and after USB 3.1 gen1 driver installation.
   - USB 3.1 gen1 devices can only be used as data storage only.
   - We strongly recommend that you connect USB 3.1 gen1 devices to USB 3.1 gen1 ports for faster and better performance for your USB 3.1 gen1 devices.

2. **USB 2.0 ports.** These Universal Serial Bus 2.0 (USB 2.0) ports connect to USB 2.0 devices such as a mouse, printer, scanner, camera, PDA, and others.

3. **Power button.** Press this button to turn on your computer.

4. **Headphone port.** This port connects to a headphone or speaker. Supported by ASUS Audio Wizard.

5. **Secure Digital™ (SD) / Memory Stick (MS) card slot.** Insert a supported memory card into this slot.

6. **Optical disk drive bay.** There is an optical disk drive in this bay (optional).

7. **Easy swappable Solid State Drive (SSD) module.** There is an easy swappable SSD module in this bay.

   You can only use the 7mm SSD in this module.
Installing a swappable Solid State Drive (SSD)

To install a swappable SSD

1. Place the SSD on the SSD module tray with the label side facing up and the connectors facing the end of the tray.
2. Mount and secure the SSD to the tray with the screws that came along with your product.
3. Push the tray gently into the SSD bay.
4. Select a program from the AutoPlay window to access your files.

---

You can only use the 7mm SSD in this module.
**Rear**

1. **USB 2.0 ports.** These Universal Serial Bus 2.0 (USB 2.0) ports connect to USB 2.0 devices such as a mouse, printer, scanner, camera, PDA, and others.

2. **HDMI port.** This port is for a High-Definition Multimedia Interface (HDMI) connector, and is HDCP compliant allowing playback of HD DVD, Blu-ray, and other protected content.

3. **USB 3.1 gen1 Type A ports.** These 9-pin The Universal Serial Bus 3.1 gen1 Type A ports are for USB 3.1 gen1 devices.

4. **Optical S/PDIF Out port.** This port connects to the optical S/PDIF devices.

5. **Rear Speaker Out port (black).** This port connects to the rear speakers in a 4, 6, and 8-channel audio configuration.

6. **Center/Subwoofer port (orange).** This port connects to the center/subwoofer speakers.

7. **Microphone port (pink).** This port connects to a microphone.

8. **Line Out port (lime).** This port connects to a headphone or speaker. In a 4.1, 5.1, or 7.1-channel configuration, the function of this port becomes Front Speaker Out. Supported by ASUS Audio Wizard.
9 **Line In port (light blue).** This port connects to a tape, CD, DVD player, or other audio sources.

Refer to the audio configuration table below for the function of the audio ports in a 2.1, 4.1, 5.1, or 7.1-channel configuration.

### Audio 2.1, 4.1, 5.1, or 7.1-channel configuration

14 **Air vents.** These vents allow air ventilation.

- **DO NOT** block the air vents on the chassis. Always provide proper ventilation for your computer.
Setting up your computer

This section guides you through connecting the main hardware devices, such as the external monitor, keyboard, mouse, and power cord, to your computer.

Connecting an external monitor

Using the ASUS Graphics Card (on selected models only)
Connect your monitor to the display output port on the discrete ASUS Graphics Card.

To connect an external monitor using the ASUS Graphics Card:
1. Connect a monitor to a display output port on the ASUS Graphics Card.
2. Plug the monitor to a power source.

The display output ports on the ASUS Graphics Card may vary with different models.

Connecting a USB keyboard and a USB mouse
Connect a USB keyboard and a USB mouse to the USB ports on the rear panel of your computer.
Turning your computer ON

This section describes how to turn on your computer after setting up your computer.

Turning your computer ON

To turn your computer ON:

1. Turn your monitor ON.
2. Press the power button on your computer.
3. Wait until the operating system loads automatically.
Connecting a USB storage device

This desktop PC provides USB 2.0, USB 3.1 gen1 and USB 3.1 gen2 ports on the front and rear panels. The USB ports allow you to connect USB devices such as storage devices.

To connect a USB storage device:

• Insert the USB storage device to your computer.
Connecting microphone and speakers

This desktop PC comes with microphone ports and speaker ports on both the front and rear panels. The audio I/O ports located on the rear panel allow you to connect 2.1-channel, 4.1-channel, 5.1-channel, and 7.1-channel stereo speakers.

Connecting Headphone and Mic

Connecting headset and microphone
Connecting 2.1-channel Speakers

Connecting 4.1-channel Speakers
Connecting 5.1-channel Speakers

Connecting 7.1-channel Speakers
Connecting multiple external displays

Your desktop PC may come with VGA, HDMI, or DVI ports and allows you to connect multiple external displays.

Setting up multiple displays

When using multiple monitors, you are allowed to set display modes. You can use the additional monitor as a duplicate of your main display, or as an extension to enlarge your Windows desktop.

To set up multiple displays:

1. Turn off your computer.
2. Connect the two monitors to your computer and connect the power cords to the monitors. Refer to Setting up your computer section in Chapter 1 for details on how to connect a monitor to your computer.
3. Turn on your computer.
4. From the Start menu, click Settings > System > Display.
5. Configure the settings for your displays.

For some graphic cards, only the monitor that is set to be the primary display has display during POST. The dual display function works only under Windows.
Connecting an HDTV

Connect a High Definition TV (HDTV) to the HDMI port of your computer.

- You need an HDMI cable to connect the HDTV and the computer. The HDMI cable is purchased separately.
- To get the best display performance, ensure that your HDMI cable is less than 15 meters.
Chapter 3
Using your computer

Proper posture when using your Desktop PC

When using your Desktop PC, maintaining the proper posture is necessary to prevent strain to your wrists, hands, and other joints or muscles. This section provides you with tips on avoiding physical discomfort and possible injury while using and fully enjoying your Desktop PC.

To maintain the proper posture:

• Position your computer chair to make sure that your elbows are at or slightly above the keyboard to get a comfortable typing position.

• Adjust the height of your chair to make sure that your knees are slightly higher than your hips to relax the backs of your thighs. If necessary, use a footrest to raise the level of your knees.

• Adjust the back of your chair so that the base of your spine is firmly supported and angled slightly backward.

• Sit upright with your knees, elbows and hips at an approximately 90° angle when you are at the PC.

• Place the monitor directly in front of you, and turn the top of the monitor screen even with your eye level so that your eyes look slightly downward.

• Keep the mouse close to the keyboard, and if necessary, use a wrist rest for support to reduce the pressure on your wrists while typing.

• Use your Desktop PC in a comfortably-lit area, and keep it away from sources of glare such as windows and straight sunlight.

• Take regular mini-breaks from using your Desktop PC.
Using the optical drive

Inserting an optical disc

To insert an optical disc:

1. While your system is on, press the eject button to open the tray.
2. Place the disc to the optical drive with the label side facing up.
3. Push the tray gently to close it.
4. Select a program from the AutoPlay window to access your files.

If AutoPlay is NOT enabled in your computer, to access the data on an optical disc, hover your mouse pointer over the lower left corner of Windows’ desktop then right-click on the Start screen’s thumbnail. From the popup menu, click File Explorer, and then double-click the CD/DVD drive icon.

Removing an optical disc

To remove an optical disc:

1. While the system is on, do either of the following to eject the tray:
   • Press the eject button below the drive bay cover.
   • From the Start menu, click File Explorer, right-click the CD/DVD drive icon, and click Eject.
2. Remove the disc from the disc tray.
Chapter 4
Connecting to the Internet

**Wired connection**
Use an RJ-45 cable to connect your computer to a DSL/cable modem or a local area network (LAN).

**Connecting via a DSL/cable modem**

**To connect via a DSL/cable modem:**

1. Set up your DSL/cable modem.
   
   Refer to the documentation that came with your DSL/cable modem.

2. Connect one end of an RJ-45 cable to the LAN (RJ-45) port on the rear panel of your computer and the other end to a DSL/cable modem.

3. Turn on the DSL/cable modem and your computer.

4. Configure the necessary Internet connection settings.

- Contact your network administrator for details or assistance in setting up your Internet connection.
- For more details, refer to the sections *Configuring a dynamic IP/PPPoE network connection* or *Configuring a static IP network connection*. 
Connecting via a local area network (LAN)

To connect via a LAN:

1. Connect one end of an RJ-45 cable to the LAN (RJ-45) port on the rear panel of your computer and the other end to your LAN.

2. Turn on your computer.

3. Configure the necessary Internet connection settings.

   • Contact your network administrator for details or assistance in setting up your Internet connection.

   • For more details, refer to the sections Configuring a dynamic IP/PPPoE network connection or Configuring a static IP network connection.
Configuring a dynamic IP/PPPoE network connection

To configure a dynamic IP/PPPoE network connection:

1. Launch **Network and Sharing Center** in either of these two ways:
   a) From the taskbar, right-click , then click **Open Network and Sharing Center**.
   b) From the Start menu, click **Settings > Network & Internet > Ethernet > Network and Sharing Center**.

2. From the Open Network and Sharing Center screen, click **Change Adapter settings**.

3. Right-click on your LAN and select **Properties**.

4. Click **Internet Protocol Version 4(TCP/IPv4)** and click **Properties**.

5. Click **Obtain an IP address automatically** and click **OK**.

Continue to the next steps if you are using PPPoE connection.
7. Return to the **Network and Sharing Center** and then click **Set up a new connection or network**.

8. Select **Connect to the Internet** and click **Next**.

9. Select **Broadband (PPPoE)** and click **Next**.

10. Follow the next onscreen instructions to complete the setup.

**Configuring a static IP network connection**

To configure a static IP network connection:

1. Repeat steps 1 to 4 of the previous section.
2. Click **Use the following IP address**.
3. Enter the IP address, Subnet mask and Gateway from your service provider.
4. If needed, enter the preferred DNS Server address and alternative address.
5. When done, click **OK**.
Wi-Fi connection (on selected models only)

Connect your computer to the Internet through a wireless connection.

To establish a wireless connection, you need to connect to a wireless access point (AP).

To increase the range and sensitivity of the wireless radio signal, connect the external antennas to the antenna connectors on the ASUS WLAN Card.
Chapter 5
Troubleshooting

Troubleshooting

This chapter presents some problems you might encounter and the possible solutions.

? **My computer cannot be powered on and the power LED on the front panel does not light up.**
  - Check if your computer is properly connected.
  - Check if the wall outlet is functioning.
  - Check if the Power Supply Unit is switched on. Refer to the section *Turning your computer ON* in Chapter 1.

? **My computer hangs.**
  - Do the following to close the programs that are not responding:
    1. Simultaneously press <Alt> + <Ctrl> + <Delete> keys on the keyboard, then click *Task Manager*.
    2. Under *Task Manager* in the *Processes* tab, select the program that is not responding, then click *End Task*.
  - If the keyboard is not responding, press and hold the Power button on the top of your chassis until the computer shuts down. Then press the Power button to turn it on.

? **I cannot connect to a wireless network using the ASUS WLAN Card (on selected models only)?**
  - Ensure that you enter the correct network security key for the wireless network you want to connect to.
  - Connect the external antennas (optional) to the antenna connectors on the ASUS WLAN Card and place the antennas on the top of your computer chassis for the best wireless performance.

? **The arrow keys on the number key pad are not working.**

Check if the Number Lock LED is off. When the Number Lock LED is on, the keys on the number key pad are used to input numbers only. Press the Number Lock key to turn the LED off if you want to use the arrow keys on the number key pad.
? **No display on the monitor.**

- Check if the monitor is powered on.
- Ensure that your monitor is properly connected to the video output port on your computer.
- If your computer comes with a discrete graphics card, ensure that you connect your monitor to a video output port on the discrete graphics card.
- Check if any of the pins on the monitor video connector is bent. If you discover bent pins, replace the monitor video connector cable.
- Check if your monitor is plugged to a power source properly.
- Refer to the documentation that came with your monitor for more troubleshooting information.

? **When using multiple monitors, only one monitor has display.**

- Ensure that the both monitors are powered on.
- During POST, only the monitor connected to the VGA port has display. The dual display function works only under Windows.
- When a graphics card is installed on your computer, ensure that you connect the monitors to the output port on the graphics card.
- Check if the multiple displays settings are correct.

? **My computer cannot detect my USB storage device.**

- The first time you connect your USB storage device to your computer, Windows automatically installs a driver for it. Wait for a while and go to My Computer to check if the USB storage device is detected.
- Connect your USB storage device to another computer to test if the USB storage device is broken or malfunctions.

? **I want to restore or undo changes to my computer’s system settings without affecting my personal files or data.**

You can use Windows® 10 **Refresh your PC without affecting your files** recovery option to restore or undo changes to your computer’s system settings without affecting your personal data such as documents or photos. To use this recovery option, click **Settings > Update & recovery > Recovery** from the Start menu, select **Refresh your PC without affecting your files**, and click **Get started.**
The picture on the HDTV is distorted.

- It is caused by the different resolutions of your monitor and your HDTV. Adjust the screen resolution to fit your HDTV. To change the screen resolution:
  - From the Start menu, click Settings > System > Display.

My speakers produce no sound.

- Ensure that you connect your speakers to the Line out port (lime) on the front panel or the rear panel.
- Check if your speakers is connected to an electrical source and turned on.
- Adjust your speakers’ volume.
- Ensure that your computer’s system sounds are not Muted.
  - If it is muted, the volume icon is displayed as . To enable the system sounds, click from the Windows notification area, then click .
  - If it is not muted, click and drag the slider to adjust the volume.
- Connect your speakers to another computer to test if the speakers are working properly.

The DVD drive cannot read a disc.

- Check if the disc is placed with the label side facing up.
- Check if the disc is centered in the tray, especially for the discs with non-standard size or shape.
- Check if the disc is scratched or damaged.
The DVD drive eject button is not responding.

1. From the Start menu, click File Explorer.

2. Right-click , then click Eject from the menu

### Power

If the problem still persists, refer to your Desktop PC’s warranty card and contact the ASUS Service Center. Visit the ASUS Support site at [https://www.asus.com/support](https://www.asus.com/support) for the service center information.
**Starting for the first time**

When you start your computer for the first time, a series of screens appear to guide you in configuring the basic settings of your Windows® 10 operating system.

**To start your Desktop PC for the first time:**

1. Press the power button on your Desktop PC. Wait for a few minutes until the setup screen appears.
2. From the setup screen, pick your region and language that you want to use on your desktop PC.
3. Carefully read the License Terms, then tap **I Accept**.
4. Follow the onscreen instructions to configure the following basic items:
   - Personalize
   - Get online
   - Settings
   - Your account
5. Wait until Windows® 10 finishes installing the apps and system settings. After the installation, the Windows® 10 desktop appears.
Using the Windows® 10 UI

The Windows® 10 User Interface (UI) includes the favorite Start menu and the tiled-formatted Start screen. It includes the following features you can use while working on your Desktop PC.

Start menu

Windows® 10 brings back the Start menu with some enhancements, such as the space that you can customize with your favorite apps, people, or websites.

You can launch the Start menu in two ways:

- Click the Start button from the lower-left corner of the taskbar.
- Press the Windows® Start key \( \text{Windows}^\text{\textregistered} \) on your keyboard.

Pinning apps to the Start screen or taskbar

To pin an app to the Start screen or taskbar:

1. From the Start menu, click All apps, then select the app that you want to pin.
2. Click Pin to Start or Pin to taskbar to pin your selected app to the Start screen or taskbar.
   You can also drag then drop an app to the Start Screen or taskbar to pin it.
**Start screen**

The Start screen, which appears together with the Start menu, helps organize all the apps you need in just one place. The apps on the Start screen are displayed on tiled-format for easy access.

---

Some apps require signing in to your Microsoft account before they are fully launched.

---

**Moving apps on the Start screen**

You can move apps from the Start screen simply through dragging and dropping the app to your preferred location.

**Unpinning apps from the Start screen**

To unpin an app from the Start screen, right-click on the app to activate its settings bar then click *Unpin from Start*. 
Taskbar
Windows® 10 comes with the standard taskbar, which keeps all your currently running apps or items in the background.

Unpinning apps from the taskbar
1. From the Start screen or taskbar, right-click the app you want to unpin.
2. Click Unpin from Start or Unpin this program from taskbar to remove the app from the Start screen or taskbar.

Using the Task View
When you have several running apps, you can click from the taskbar to display all your running apps, and click on an app or item to launch it.

If task view is disabled, click Show Task View button to display the task view icon.
Snap feature
The Snap feature displays about four apps or more in one screen, allowing you to work or switch among apps.

Using Snap
Use your Desktop PC's mouse or keyboard to activate Snap onscreen.

*Using your mouse*
a) Launch an app, then drag and release on a screen corner to snap it in place.
b) Snap another app to your preferred location on the screen.

*Using your keyboard*

a) Launch an app, press `Windows` and the arrow keys to select the direction where you want to snap the app in place.
b) Snap another app using `Windows` and the arrow keys.
### Keyboard shortcuts

Using your keyboard, you can also use the following shortcuts to help you launch apps and navigate Windows® 10.

<table>
<thead>
<tr>
<th>Keys</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Switches between the Start screen and the last running app</td>
</tr>
<tr>

</tbody>
</table>
Removing everything and reinstalling Windows® 10

Restoring your PC to its original factory settings can be done using the Remove everything and reinstall options in PC Settings. Refer to the steps below to use this option.

1. From the Start menu, click **Settings > Update & security > Recovery**.
2. Scroll down to view the **Remove everything and reinstall Windows** option. Under this option, click **Get started**.
3. Follow the onscreen instructions to complete the reinstallation and reset process.

- Back up all your data before using this option.
- This process may take a while to complete.
