LIMITATION OF LIABILITY

Circumstances may arise where because of a default on ASUS' part or other liability, you are entitled to recover damages from ASUS. In each such instance, regardless of the basis on which you are entitled to claim damages from ASUS, ASUS is liable for no more than damages for bodily injury (including death) and damage to real property and tangible personal property; or any other actual and direct damages resulted from omission or failure of performing legal duties under this Warranty Statement, up to the listed contract price of each product.

ASUS will only be responsible for or indemnify you for loss, damages or claims based in contract, tort or infringement under this Warranty Statement.

This limit also applies to ASUS' suppliers and its reseller. It is the maximum for which ASUS, its suppliers, and your reseller are collectively responsible.

UNDER NO CIRCUMSTANCES IS ASUS LIABLE FOR ANY OF THE FOLLOWING: (1) THIRD-PARTY CLAIMS AGAINST YOU FOR DAMAGES; (2) LOSS OF, OR DAMAGETO, YOUR RECORDS OR DATA; OR (3) SPECIAL, INCIDENTAL, OR INDIRECT DAMAGES OR FOR ANY ECONOMIC CONSEQUENTIAL DAMAGES (INCLUDING LOST PROFITS OR SAVINGS), EVEN IF ASUS, ITS SUPPLIERS OR YOUR RESELLER IS INFORMED OF THEIR POSSIBIL ITY.

Chapter 1: Introduction

Disclaimer

ASUS is not responsible for direct, indirect, intentional or unintentional damages resulting from improper installation and operation.

Safety precautions

- Before handling components, use a grounded wrist strap or touch a safely grounded object to avoid damaging them due to static electricity.
- Keep liquids or moisture away from your device to avoid short circuits.
- Remove rings, watches, and any other metal objects from your hands.
- Hold components by the edges to avoid touching the ICs.
- Properly install all components before connecting the AC power.
- Do not use power adapters or batteries from other devices to reduce the risk of injury to persons due to fire or explosion.
 Use only certified power adapters or batteries supplied by the manufacturer or authorized retailers.
- Detach all clips or flaps before removing cables to prevent damage.

- Disconnect cables, connectors, and power plugs by pulling the plug evenly to avoid damage.
- Use the correct screw models on your device to prevent damage.
- Confirm that the cable orientation is correct before connecting any cables.
- Fully remove all adhesive residue after removing and before installing any components.
- Photograph the appearance of cables, cable routing, connectors, and screws for later reference before proceeding with each step.

Pre-repair checklist

- Read the entire manual before starting any service procedures and follow all instructions.
- Back up the data on your device.
- Place your device on a clean and stable surface.
- · Turn off your device.
- Disconnect all connected peripherals and cables.
- Disconnect all power cables and remove the battery pack (if applicable).

IMPORTANT!

- If you are uncertain about performing the described service procedures, stop and contact an authorized service center for assistance.
- Purchase replacement components from authorized retailers of this device to ensure maximum compatibility and reliability.

NOTE:

- · The illustrations are for reference only.
- The service procedures described in this manual depend on the model configuration and may not reflect the entire servicing process.
 To service components that are not covered in this manual, please visit an authorized service center for further assistance.
- Keep all adhesive tape, insulating materials, screws, and other removable items in a safe place until the service procedure is completed, as they may be needed during installation.

Installation tools

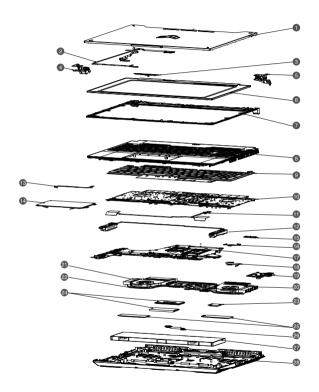

Diagnostic tools

Use ASUS System Diagnostics after completing any service procedures to ensure that all components are working properly.

Chapter 2: Service Procedures

Bottom cover

Before you begin

Read the Safety Precautions and complete the Pre-repair Checklist.

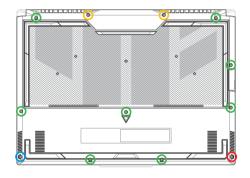

Screw list

- M2.5 X 9.5L (8pcs)
- M2.5 X 12.0L (2pcs)
- M2.5 X 8.0L (1pc)
- ● M2.5 X 8.0L (1pc Pop-open Screw)

Removal

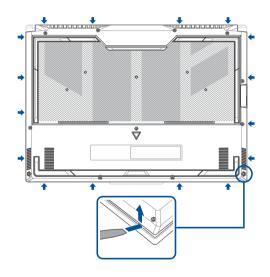

IMPORTANT! System power will be cut off automatically upon removal of the bottom cover. To restore power, reattach the bottom cover securely and connect the AC power adapter to your Notebook PC after the servicing is complete.

- 1. Remove the screw(s) from the bottom cover.
- Loosen the Pop-open Screw without removing the screw from the cover.

- 3. Use the plastic blade to pry open the indicated area of the bottom cover as shown in the illustration below.
- 4. Remove the bottom cover.

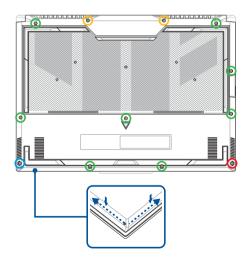

IMPORTANT! Avoid sliding the plastic blade along the side of your device or air vents to prevent damage.

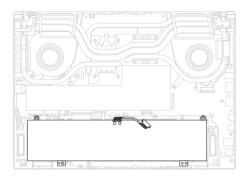

Installation

IMPORTANT! System power will be cut off automatically upon removal of the bottom cover. To restore power, reattach the bottom cover securely and connect the AC power adapter to your Notebook PC after the servicing is complete.

- Install the bottom cover.
- 2. Gently press down on the bottom cover until it clicks into place.
- 3. Secure the bottom cover using the screw(s) you removed earlier.
- 4. Tighten the Pop-open Screw.

Battery

Before you begin

- 1. Read the Safety Precautions and Pre-repair Checklist.
- 2. Remove the following components:
 - Bottom cover

Screw list

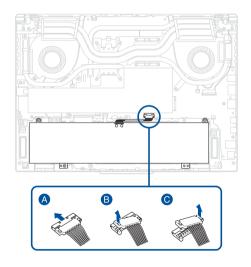

M2.0 X 4.0L (3pcs)

Removal

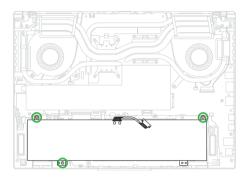

1. Disconnect the battery power cable.

IMPORTANT!

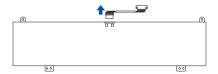

- Disconnect the battery power cable by lifting the side with the red wires first.
- Serious risk of fire or explosion may occur if the battery is punctured.
 If you are uncertain about proceeding, stop and contact an
 authorized service center for assistance.

- 2. Remove the screw(s) from the battery.
- 3. Remove the battery.

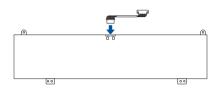

4. Remove the battery power cable.

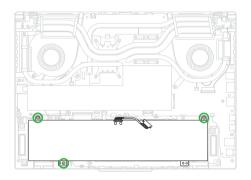

Installation

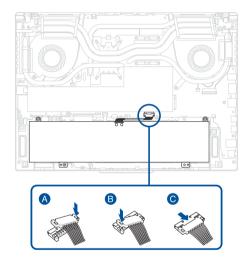

1. Connect the battery power cable to the battery.

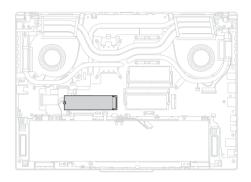

- 2. Install the battery.
- 3. Secure the battery using the screw(s) you removed earlier.

- 4. Reconnect the battery power cable.
- 5. Install the components you removed in the *Before you begin* section.

M.2 SSD module

Before you begin

IMPORTANT! Thermal paste, thermal pads, liquid metal, or other thermal interface materials must be thoroughly removed and replaced if this component is removed. Ensure that replacement materials are available before proceeding, or contact an authorized service center for assistance.

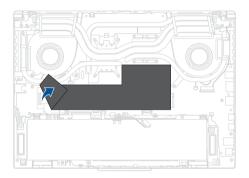

- 1. Read the Safety Precautions and Pre-repair Checklist.
- 2. Remove the following components:
 - Bottom cover
 - Battery

Screw list

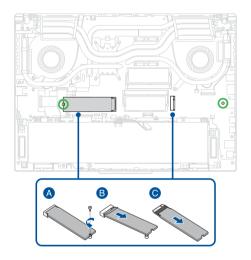

● M2.0 X 3.0L (2pcs)

Removal

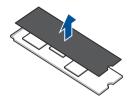

1. Remove the polyester film from the left side.

- 2. Remove the screw(s), then remove the M.2 SSD module(s) from the motherboard.
- 3. Remove the aluminum foil sleeve(s).

4. Remove the absorber sheet(s) from the M.2 SSD module(s).

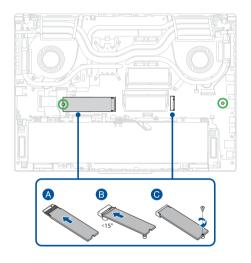

Installation

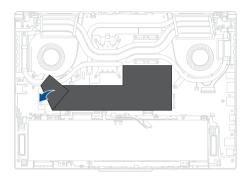

1. Reattach the absorber sheet(s) to the M.2 SSD module(s).

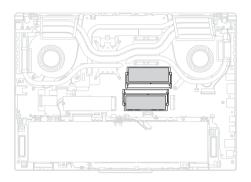

- Insert the M.2 SSD module(s) into the aluminum foil sleeve(s) as shown in the illustration below.
- Align and insert the M.2 SSD module(s) into the M.2 connector(s), and secure the M.2 SSD module(s) to the motherboard using the screw(s) you removed earlier.

- 4. Align and reattach the polyester film as shown in the illustration below.
- 5. Install the components you removed in the *Before you begin* section.

RAM module

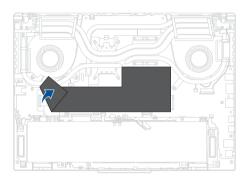

Before you begin

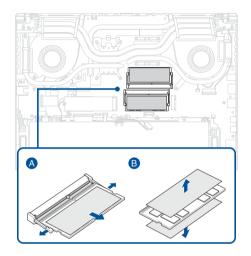

- 1. Read the Safety Precautions and Pre-repair Checklist.
- 2. Remove the following components:
 - Bottom cover
 - Battery

Removal

1. Remove the polyester film from the left side.

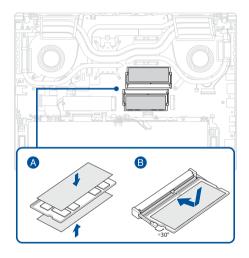

- 2. Push the clips outwards to remove the RAM module(s).
- 3. Remove the absorber sheet(s) from both sides of the RAM module(s).

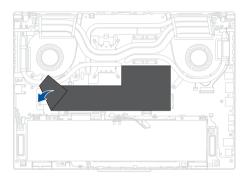

Installation

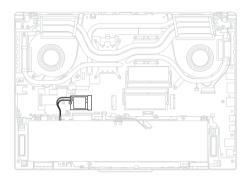

- Reattach the absorber sheet(s) to both sides of the RAM module(s).
- 2. Align and insert the RAM module(s) into the RAM module slot(s).

- 3. Align and reattach the polyester film as shown in the illustration below.
- 4. Install the components you removed in the *Before you begin* section.

WLAN module

Before you begin

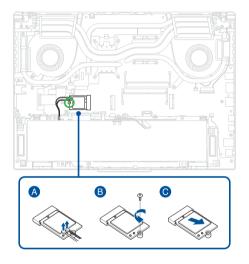

- 1. Read the Safety Precautions and Pre-repair Checklist.
- 2. Remove the following components:
 - Bottom cover
 - Battery
 - M.2 SSD module

Screw list

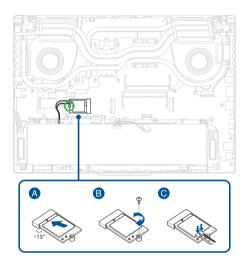

● ● M2.0 X 3.0L (1pc)

Removal

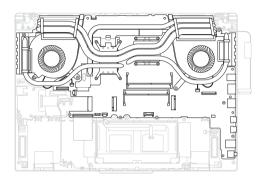

Disconnect the antenna cable(s), then remove the screw and remove the WLAN module.

- Install the WLAN module, then secure the WLAN module using the screw you removed earlier and reconnect the antenna cable(s).
- 2. Install the components you removed in the *Before you begin* section.

Fan module, Heat sink and motherboard

Before you begin

IMPORTANT! Thermal paste, thermal pads, liquid metal, or other thermal interface materials must be thoroughly removed and replaced if this component is removed. Ensure that replacement materials are available before proceeding, or contact an authorized service center for assistance.

- 1. Read the Safety Precautions and Pre-repair Checklist.
- 2. Remove the following components:

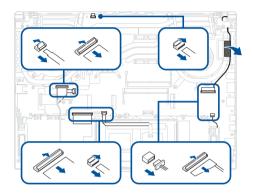

- Bottom cover
- Battery
- M.2 SSD module
- RAM module
- WLAN module

Screw list

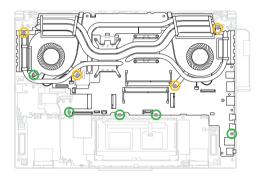

- ● M2.0 X 4.0L (13pcs)
- M2.0 X 5.0L (4pcs)

Removal

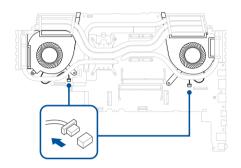

1. Remove the tape, then disconnect the cable(s).

- 2. Remove the screw(s) from the motherboard.
- 3. Remove the motherboard with the heat sink and the fan module(s) attached.

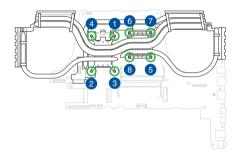

- 4. Remove the screw(s) from the fan module(s), then disconnect the fan connector(s).
- 5. Tilt the fan(s) downward and remove the fan(s) sideways.

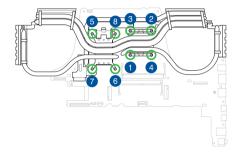

6. Remove the heat sink screw(s) one by one in the sequence shown in the illustration below, then remove the heat sink.

IMPORTANT! Vertically lift the heat sink using the middle part of the heat sink to prevent damage.

 Align and install the heat sink, then secure the heat sink screw(s) one by one in the sequence shown in the illustration below.

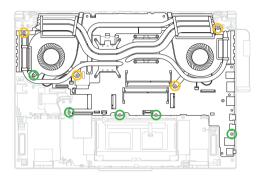

2. Tilt the fan(s) upward and install the fan(s) sideways.

NOTE: Ensure the cable(s) are routed under the heat sink.

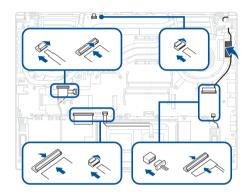

3. Reconnect the fan connector(s).

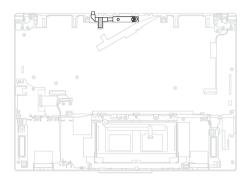

- 4. Align and install the motherboard with the heat sink and the fan module(s) attached.
- 5. Secure the motherboard using the screw you removed earlier.

- 6. Locate and reconnect the cable(s), then reattach the tape as shown in the illustration.
- 7. Install the components you removed in the *Before you begin* section.

LED board

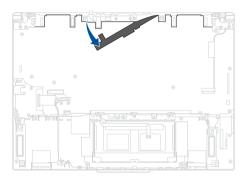

Before you begin

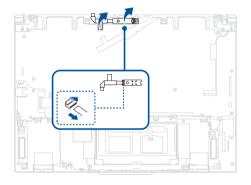

- 1. Read the Safety Precautions and Pre-repair Checklist.
- 2. Remove the following components:
 - Bottom cover
 - Battery
 - M.2 SSD module
 - RAM module
 - WLAN module
 - Fan module
 - Heat sink
 - Motherboard

Removal

1. Remove the polyester film.

- 2. Remove the tape.
- 3. Flip over the LED board, then disconnect the FFC cable.
- 4. Remove the LED board.

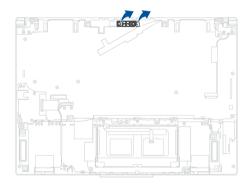

5. Remove the aluminum foil.

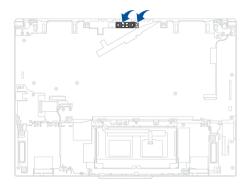

NOTE: This adhesive material cannot be reused. Remove any adhesive residue and use the new adhesive material when reinstalling components.

6. Remove the adhesive LED sponge from the chassis.

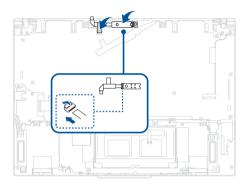

NOTE: This adhesive material cannot be reused. Remove any adhesive residue and use the new adhesive material when reinstalling components.

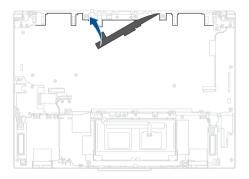

- 1. Align and attach the adhesive LED sponge.
- 2. Align and attach the aluminum foil.

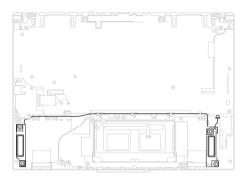

- 3. Connect the LED FFC cable to the bottom of the LED board.
- 4. Flip and install the LED board, then attach the tape.

- 5. Reattach the polyester film.
- 6. Install the components you removed in the *Before you begin* section.

Speakers

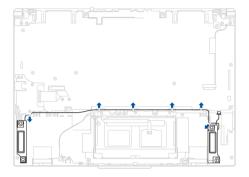

Before you begin

- 1. Read the Safety Precautions and Pre-repair Checklist.
- 2. Remove the following components:
 - Bottom cover
 - Battery
 - M.2 SSD module
 - RAM module
 - WLAN module
 - Fan module
 - Heat sink
 - Motherboard

Removal

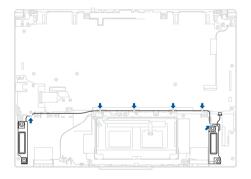

Remove the speaker cable from the cable guides, then remove the speakers.

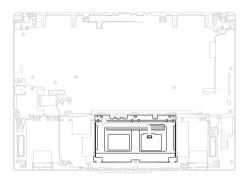

- 1. Install the speakers.
- 2. Route the speaker cable through the cable guides.

IMPORTANT! Damage may occur if cables are not properly routed through the cable guides. Confirm that all cables are routed through each of the indicated cable guides before proceeding.

 Install the components you removed in the Before you begin section.

Touchpad

Before you begin

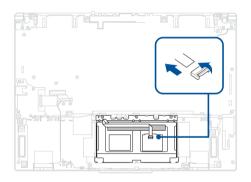

- 1. Read the Safety Precautions and Pre-repair Checklist.
- 2. Remove the following components:
 - Bottom cover
 - Battery
 - M.2 SSD module
 - RAM module
 - WLAN module
 - Fan module
 - Heat sink
 - Motherboard

Screw list

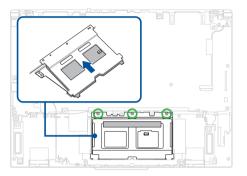

● M2.0 X 2.0L (3pcs)

Removal

 Disconnect and remove the touchpad FFC cable from the touchpad.

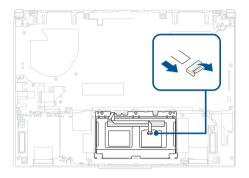

2. Remove the screw(s), then remove the touchpad module.

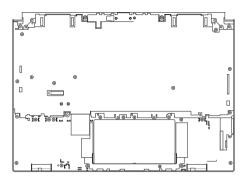

- 1. Align and install the touchpad as shown in the illustration below.
- 2. Secure the touchpad using the screw(s) you removed earlier.

- 3. Reconnect the touchpad FFC cable.
- 4. Install the components you removed in the *Before you begin* section.

Keyboard module

Before you begin

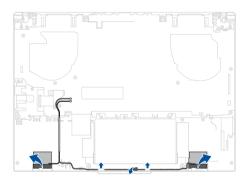

- 1. Read the Safety Precautions and Pre-repair Checklist.
- 2. Remove the following components:
 - Bottom cover
 - Battery
 - M.2 SSD module
 - RAM module
 - WLAN module
 - Fan module
 - Heat sink
 - Motherboard

- LED board
- Touchpad
- Speakers

Removal

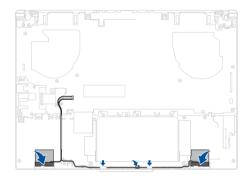

Remove the antenna cable(s) from the cable guide(s).

IMPORTANT! The antenna cable(s) cannot be reused once removed.

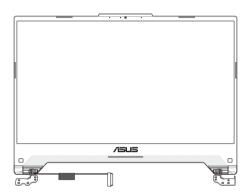

- 1. Install the antenna cable(s).
- 2. Route the cable(s) through the cable guide(s).

IMPORTANT! Damage may occur if cables are not properly routed through the cable guides. Confirm that all cables are routed through each of the indicated cable guides before proceeding.

Display panel module

Before you begin

IMPORTANT! Do not bend the display panel in any way to avoid risk of display panel leakage.

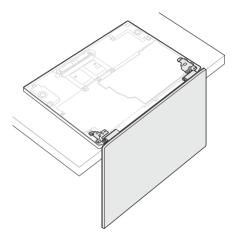

- 1. Read the Safety Precautions and Pre-repair Checklist.
- 2. Remove the following components:
 - Bottom cover
 - Battery

Screw list

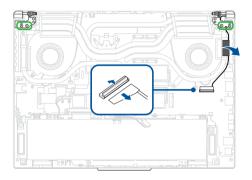

● M2.5 X 5.0L (4pcs)

Removal

 Place your device with the display panel hanging over the edge of the workspace as shown in the illustration below.

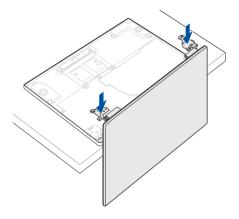

- 2. Remove the screw(s).
- 3. Remove the tape, then disconnect the cable.

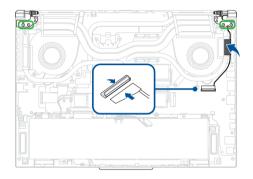

4. Remove the display panel module.

 In the orientation shown, align and place the hinges of the display panel module on the screw holes.

- 2. Secure the hinges using the screw(s) you removed earlier.
- 3. Route the cable, then reattach the tape.
- 4. Install the components you removed in the *Before you begin* section.

Display bezel

Before you begin

IMPORTANT! This component is fragile. Damage may occur if the service procedure is performed incorrectly. If you are uncertain about proceeding, stop and contact an authorized service center for assistance.

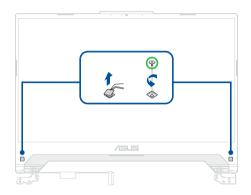

- 1. Read the Safety Precautions and Pre-repair Checklist.
- 2. Remove the following components:
 - Bottom cover
 - Battery
 - · Display panel module

Screw list

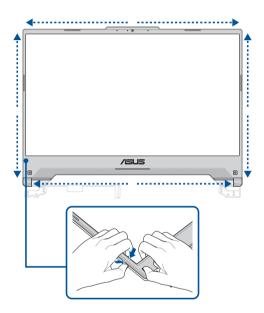

● M2.5 X 3.5L (2pcs in total from two sides)

Removal

- 1. Remove the rubber cover(s) to expose the screw(s) underneath.
- 2. Remove the screw(s).

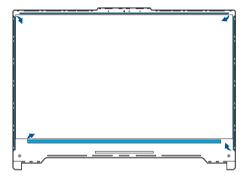

3. Carefully pry the bezel loose from the bottom left corner, then remove the bezel completely.

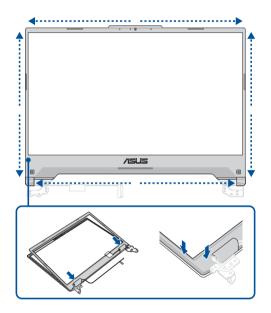

Installation

1. Remove the release liner(s) from the tape on the bezel.

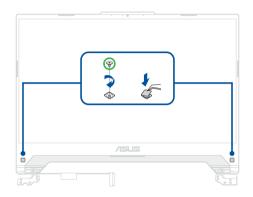

NOTE: The tape cannot be reused. Remove any adhesive residue and use new tape when reinstalling components.

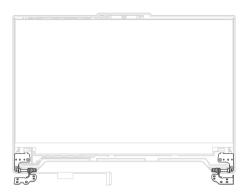

2. Align and install the bezel.

- 3. Secure the bezel using the screw(s) you removed earlier.
- 4. Put the rubber cover(s) in place.
- Install the components you removed in the Before you begin section.

Display hinges

Before you begin

IMPORTANT! Do not bend the display panel in any way to avoid risk of display panel leakage.

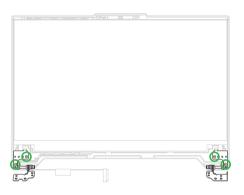

- 1. Read the Safety Precautions and Pre-repair Checklist.
- 2. Remove the following components:
 - Bottom cover
 - Battery
 - · Display panel module
 - · Display bezel

Screw list

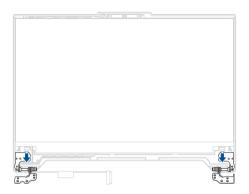

● M2.5 X 3.0L (4pcs)

Removal

1. Remove the screw(s).

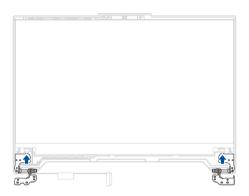

2. Remove the hinges.

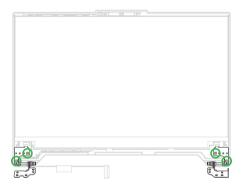

Installation

1. Align and install the hinges.

- 2. Secure the hinges using the screw(s) you removed earlier.
- 3. Install the components you removed in the *Before you begin* section.

Display panel

Before you begin

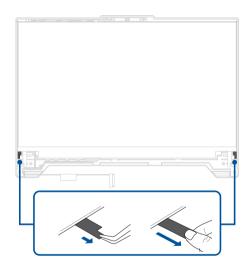

IMPORTANTI

- This component is fragile. Damage may occur if the service procedure is performed incorrectly. If you are uncertain about proceeding, stop and contact an authorized service center for assistance.
- Do not bend the display panel in any way to avoid risk of display panel leakage.
- 1. Read the Safety Precautions and Pre-repair Checklist.
- 2. Remove the following components:
 - Bottom cover
 - Battery
 - · Display panel module
 - Display bezel
 - Display hinges

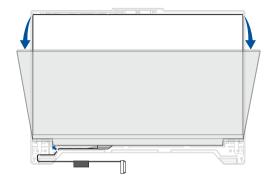

Removal

1. Locate the tip of the stretch release tape, then carefully pull out the stretch release tape as shown in the illustration below.

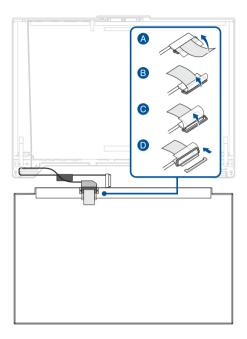

IMPORTANT! Maintain a flat angle and constant speed when pulling the stretch release tape. Excessive force may damage the stretch release tape and prevent removal of the display panel.

- 2. Lift the display panel as shown in the illustration below.
- 3. Release the cable from the cable guide.

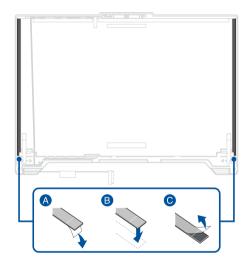

4. Disconnect the cable from the rear side of the display panel.

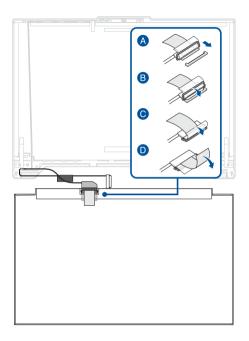

Installation

- 1. Remove the release liner(s) from the bottom side of the stretch release tape.
- 2. Align and attach the stretch release tape to the top cover.
- 3. Remove the release liner(s) from the top side of the stretch release tape.

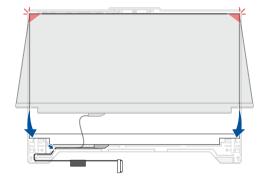

4. Reconnect the cable to the rear side of the display panel.

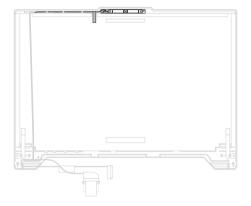

- 5. Align and install the display panel.
- 6. Route the cable through the cable guide.

IMPORTANT! Damage may occur if cables are not properly routed through the cable guides. Confirm that all cables are routed through each of the indicated cable guides before proceeding.

7. Install the components you removed in the *Before you begin* section.

Camera module

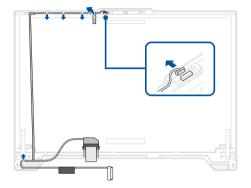

Before you begin

IMPORTANT! This component is fragile. Damage may occur if the service procedure is performed incorrectly. If you are uncertain about proceeding, stop and contact an authorized service center for assistance.

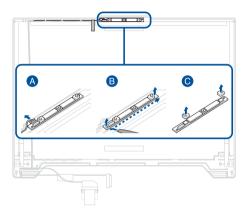

- 1. Read the Safety Precautions and Pre-repair Checklist.
- 2. Remove the following components:
 - Bottom cover
 - Battery
 - Display panel module
 - Display bezel
 - Display hinges
 - Display panel

Removal

- 1. Disconnect the cable from the camera module.
- 2. Remove the tape, then remove the cable.

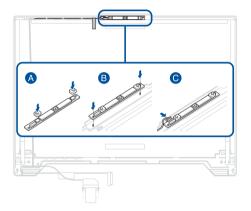

3. Carefully remove the camera module, then remove the rubber caps from the camera module.

Installation

 Attach the rubber caps to the camera module, then install the camera module.

- 2. Reconnect the cable to the camera module.
- 3. Route the cable through the cable guides, then reattach the tape.

IMPORTANT! Damage may occur if cables are not properly routed through the cable guides. Confirm that all cables are routed through each of the indicated cable guides before proceeding.

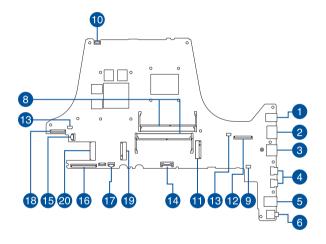

4. Install the components you removed in the *Before you begin* section.
