

## Keystone Setup Guide

The Armoury Crate app will launch and open the Settings screen automatically after you insert your Keystone (NFC key). All the settings you make after pairing will be bound to this Keystone, and the original settings of Armoury Crate will be restored once your Keystone is removed.

## Pairing

Pair your Keystone with your Notebook PC by selecting **Pair to PC**. Once the pairing is complete, you may begin to customize the settings for your Keystone.

**NOTE:** The pairing history is available in **Keystone management**.

## Setting up your Shadow Drive

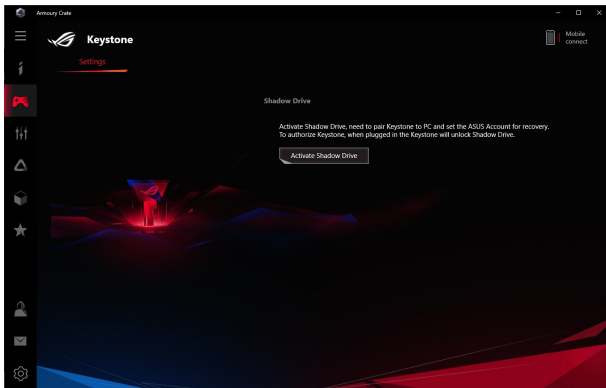

Scroll down the Settings page until you reach the Shadow Drive section.

### IMPORTANT!

- Your Notebook PC must be connected to the Internet to be able to activate this feature.
- Ensure you have registered for an ASUS member account already. Go to <https://account.asus.com> for more information.

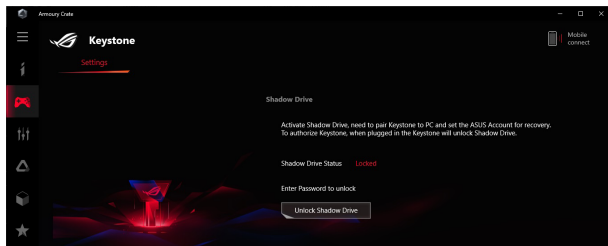

To activate your Shadow Drive:

1. Select **Activate Shadow Drive**.
2. Enter your e-mail address and password of your ASUS account to set up your recovery password for access to your Shadow Drive when your Keystone is not available.
3. Select **Activate** to complete the procedure.

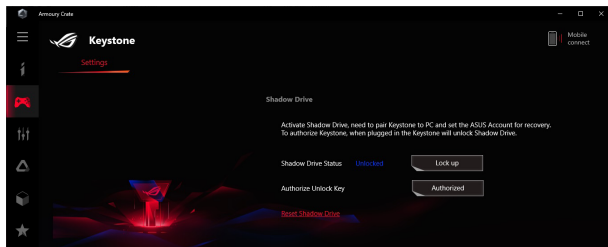

To unlock your Shadow Drive:

1. Select **Unlock Shadow Drive** to change the locked drive status.
2. Enter your ASUS account password, and select **OK** to open Shadow Drive (Z:).

To authorize your Keystone to unlock the Shadow Drive:

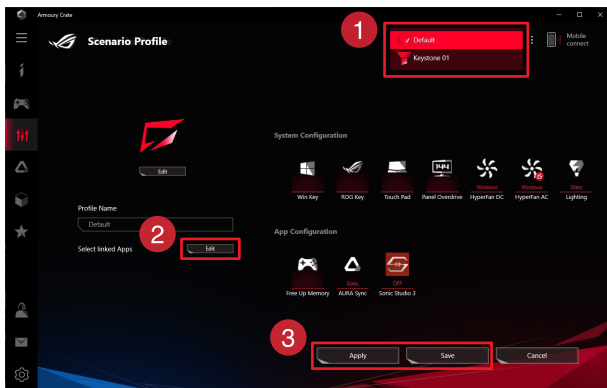

1. Select **Authorize** to grant your Keystone authorization to unlock your Shadow Drive.
2. Enter your ASUS account password and select **OK**.

## Customizing your Scenario Profile

This menu allows you to customize your own settings, such as lighting and sound effects, supported features, and profile settings.

1. Select the Keystone you wish to customize from the drop-down menu.
2. Click **Edit** to select apps you wish to apply the configurations to, then configure the settings according to your preference. You may also simply adjust the System Configuration settings without selecting apps.
3. Select **Apply** to apply and save the settings immediately, or select **Save** to simply save the settings.
