LIMITATION OF LIABILITY

Circumstances may arise where because of a default on ASUS' part or other liability, you are entitled to recover damages from ASUS. In each such instance, regardless of the basis on which you are entitled to claim damages from ASUS, ASUS is liable for no more than damages for bodily injury (including death) and damage to real property and tangible personal property; or any other actual and direct damages resulted from omission or failure of performing legal duties under this Warranty Statement, up to the listed contract price of each product.

ASUS will only be responsible for or indemnify you for loss, damages or claims based in contract, tort or infringement under this Warranty Statement.

This limit also applies to ASUS' suppliers and its reseller. It is the maximum for which ASUS, its suppliers, and your reseller are collectively responsible.

UNDER NO CIRCUMSTANCES IS ASUS LIABLE FOR ANY OF THE FOLLOWING: (1) THIRD-PARTY CLAIMS AGAINST YOU FOR DAMAGES; (2) LOSS OF, OR DAMAGE TO, YOUR RECORDS OR DATA; OR (3) SPECIAL, INCIDENTAL, OR INDIRECT DAMAGES OR FOR ANY ECONOMIC CONSEQUENTIAL DAMAGES (INCLUDING LOST PROFITS OR SAVINGS), EVEN IF ASUS, ITS SUPPLIERS OR YOUR RESELLER IS INFORMED OF THEIR POSSIBILITY.

About this manual

This manual provides information about the hardware and software features of your Notebook PC, organized through the following chapters:

Chapter 1: Hardware Setup

This chapter details the hardware components of your Notebook PC.

Chapter 2: Using your Notebook PC

This chapter shows you how to use the different parts of your Notebook PC.

Chapter 3: Working with Windows® 10

This chapter provides an overview of using Windows® 10 in your Notebook PC.

Tips and FAQs

This section presents some recommended tips, hardware FAQs, and software FAQs you can refer to for maintaining and fixing common issues with your Notebook PC.

Appendices

This section includes notices and safety statements for your Notebook PC.
Conventions used in this manual

To highlight key information in this manual, some text are presented as follows:

**IMPORTANT!** This message contains vital information that must be followed to complete a task.

**NOTE:** This message contains additional information and tips that can help complete tasks.

**WARNING!** This message contains important information that must be followed to keep you safe while performing tasks and prevent damage to your Notebook PC’s data and components.

**Icons**

The icons below indicate the devices you can use for completing a series of tasks or procedures on your Notebook PC.

- Use the touch screen panel.
- Use the touchpad.
- Use the keyboard.

**Typography**

**Bold** = This indicates a menu or an item that must be selected.

*Italic* = This indicates sections that you can refer to in this manual.
Safety precautions

Using your Notebook PC

This Notebook PC should only be used in environments with ambient temperatures between 5°C (41°F) and 35°C (95°F).

Refer to the rating label on the bottom of your Notebook PC and ensure that your power adapter complies with this rating.

Do not leave your Notebook PC on your lap or near any part of your body to prevent discomfort or injury from heat exposure.

Do not use damaged power cords, accessories, and other peripherals with your Notebook PC.

While powered on, ensure that you do not carry or cover your Notebook PC with any materials that can reduce air circulation.

Do not place your Notebook PC on uneven or unstable work surfaces.

You can send your Notebook PC through x-ray machines (used on items placed on conveyor belts), but do not expose them to magnetic detectors and wands.

Contact your airline provider to learn about related in-flight services that can be used and restrictions that must be followed when using your Notebook PC in-flight.
Caring for your Notebook PC

Disconnect the AC power and remove the battery pack (if applicable) before cleaning your Notebook PC. Use a clean cellulose sponge or chamois cloth dampened with a solution of nonabrasive detergent and a few drops of warm water. Remove any extra moisture from your Notebook PC using a dry cloth.

Do not use strong solvents such as thinners, benzene, or other chemicals on or near your Notebook PC.

Do not place objects on top of your Notebook PC.

Do not expose your Notebook PC to strong magnetic or electrical fields.

Do not use or expose your Notebook PC near liquids, rain, or moisture.

Do not expose your Notebook PC to dusty environments.

Do not use your Notebook PC near gas leaks.
Proper disposal

Do not throw your Notebook PC in municipal waste. This product has been designed to enable proper reuse of parts and recycling. The symbol of the crossed out wheeled bin indicates that the product (electrical, electronic equipment and mercury-containing button cell battery) should not be placed in municipal waste. Check local regulations for disposal of electronic products.

Do not throw the battery in municipal waste. The symbol of the crossed out wheeled bin indicates that the battery should not be placed in municipal waste.
Chapter 1:
Hardware Setup
NOTE: The keyboard's layout may vary per region or country. The Notebook view may also vary in appearance depending on the Notebook PC model.
1 **Camera**

The built-in camera allows you to take pictures or record videos using your Notebook PC.

2 **360°-adjustable touch screen panel**

Your Notebook PC’s touch screen panel can be adjusted all the way into a 360° angle. This feature allows you to quickly turn your device from a Notebook PC into a touch-enabled tablet PC.

This high-definition touch screen panel provides excellent viewing features for photos, videos, and other multimedia files on your Notebook PC. It also allows you to operate it using touch screen gestures.

---

**NOTE:** For more details on how to turn your Notebook PC into a tablet device, refer to the *Rotating the display panel* section in this manual.

---

3 **Keyboard**

The keyboard provides full-sized QWERTY keys with a comfortable travel depth for typing. It also enables you to use the function keys, allows quick access to Windows®, and controls other multimedia functions.

---

**NOTE:** The keyboard layout differs by model or territory.
4 **Capital lock indicator**
This indicator lights up when the capital lock function is activated. Using capital lock allows you to type capitalized letters (such as A, B, C) using your Notebook PC’s keyboard.

5 **Touchpad**
The touchpad allows the use of multi-gestures to navigate onscreen, providing an intuitive user experience. It also simulates the functions of a regular mouse.

**NOTE:** For more details, refer to the Using the touchpad section in this manual.

6 **Fingerprint sensor**
This built-in fingerprint sensor captures your fingerprint and uses it as biometric authentication for logging on to your Notebook PC’s system.
NOTE: The bottom side may vary in appearance depending on model.

WARNING! The bottom of the Notebook PC can get warm to hot while in use or while charging the battery pack. When working on your Notebook PC, do not place it on surfaces that can block the vents.

IMPORTANT!

• Battery time varies by usage and by the specifications for this Notebook PC. The battery pack cannot be disassembled.

• Purchase components from authorized retailers to ensure maximum compatibility and reliability. Consult an ASUS service center or authorized retailers for product service or assistance on proper disassembly or assembly of the product.
1 **Audio speakers**

The built-in audio speakers allow you to hear audio straight from your Notebook PC. Audio features are software-controlled.
Right Side

1. **Power button**
   Press the power button to turn your Notebook PC on or off. You can also use the power button to put your Notebook PC to sleep or hibernate mode and wake it up from sleep or hibernate mode.

   In the event that your Notebook PC becomes unresponsive, press and hold the power button for at least ten (10) seconds until your Notebook PC shuts down.

2. **Volume button**
   This button turns the volume up or down on your Notebook PC.

3. **Headphone/Headset/Microphone jack**
   This port allows you to connect amplified speakers or headphones. You can also use this port to connect your headset or an external microphone.
**HDMI port**

This port is for the HDMI (High-Definition Multimedia Interface) connector and is HDCP compliant for HD DVD, Blu-ray, and other protected content playback.

**Nano SIM/MicroSD combo card slot**

This built-in card reader slot supports Nano SIM and microSD card formats.

---

**IMPORTANT!** Use only the bundled pin to eject the Nano SIM/MicroSD card tray.

---

**NOTE:**

- The nano SIM card slot supports LTE and WCDMA network bands.
- The microSD card slot supports microSD, microSDHC, and microSDXC card formats.
Left Side

Two-color battery charge indicator

The two-color LED provides a visual indication of the battery’s charge status. Refer to the following table for details:

<table>
<thead>
<tr>
<th>Color</th>
<th>Status</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Solid White</strong></td>
<td>The Notebook PC is plugged to a power source and the battery power is between 95% and 100%.</td>
</tr>
<tr>
<td><strong>Solid Orange</strong></td>
<td>The Notebook PC is plugged to a power source, charging its battery, and the battery power is less than 95%.</td>
</tr>
<tr>
<td><strong>Blinking Orange</strong></td>
<td>The Notebook PC is running on battery mode and the battery power is less than 10%.</td>
</tr>
<tr>
<td><strong>Lights off</strong></td>
<td>The Notebook PC is running on battery mode and the battery power is between 10% to 100%.</td>
</tr>
</tbody>
</table>
2 **Power (DC) input port**

Insert the bundled power adapter into this port to charge the battery pack and supply power to your Notebook PC.

---

**WARNING!** The adapter may become warm to hot while in use. Do not cover the adapter and keep it away from your body while it is connected to a power source.

---

**IMPORTANT!** Use only the bundled power adapter to charge the battery pack and supply power to your Notebook PC.

3 **USB 3.1 Gen 1 port**

The USB 3.1 (Universal Serial Bus 3.1) Gen 1 port provides a transfer rate of up to 5 Gbit/s and is backward compatible to USB 2.0.
Chapter 2: Using your Notebook PC
Getting started

Charge your Notebook PC

A. Connect the DC power connector into your Notebook PC’s power (DC) input port.

B. Plug the AC power adapter into a 100V~240V power source.

Charge the Notebook PC for 3 hours before using it in battery mode for the first time.

NOTE: The power adapter may vary in appearance, depending on models and your region.

IMPORTANT!

Power adapter information:

- Input voltage: 100-240Vac
- Input frequency: 50-60Hz
- Rating output current: 3.42A (65W)
- Rating output voltage: 19V
IMPORTANT!

• Locate the input/output rating label on your Notebook PC and ensure that it matches the input/output rating information on your power adapter. Some Notebook PC models may have multiple rating output currents based on the available SKU.

• Ensure that your Notebook PC is connected to the power adapter before turning it on for the first time. We strongly recommend that you use a grounded wall socket while using your Notebook PC on power adapter mode.

• The socket outlet must be easily accessible and near your Notebook PC.

• To disconnect your Notebook PC from its main power supply, unplug your Notebook PC from the power socket.

WARNING!

Read the following precautions for your Notebook PC’s battery:

• Only ASUS-authorized technicians should remove the battery inside the device (for non-removable battery only).

• The battery used in this device may present a risk of fire or chemical burn if removed or disassembled.

• Follow the warning labels for your personal safety.

• Risk of explosion if battery is replaced by an incorrect type.

• Do not dispose of in fire.

• Never attempt to short-circuit your Notebook PC’s battery.

• Never attempt to disassemble and reassemble the battery (for non-removable battery only).

• Discontinue usage if leakage is found.

• The battery and its components must be recycled or disposed of properly.

• Keep the battery and other small components away from children.
Lift to open the display panel

Press the power button
Gestures for the touch screen panel and touchpad

Gestures allow you to launch programs and access the settings of your Notebook PC. Refer to the following illustrations when using hand gestures on your touch screen panel and touchpad.

**NOTE:** The following screenshots are for reference only. The touch screen panel’s appearance may vary depending on model.

Using touch screen panel gestures

The gestures allow you to launch programs and access the settings of your Notebook PC. The functions can be activated by using the hand gestures on your Notebook PC’s touch screen panel.

**Left edge swipe**

Swipe from the left edge of the screen to launch **Task view**.

---

**Right edge swipe**

Swipe from the right edge of the screen to launch **Action Center**.
Tap/Double-tap

- Tap an app to select it.
- Double-tap an app to launch it.

Press and hold

Press and hold to open the right-click menu.

Zoom in

Spread apart your two fingers on the touch screen panel.

Zoom out

Bring together your two fingers on the touch screen panel.
Finger slide

Slide your finger to scroll up and down and slide your finger to pan the screen left or right.

Drag

- Drag to create a selection box around multiple items.
- Drag and drop an item to move it to a new location.
Using the touchpad

Moving the pointer

You can tap anywhere on the touchpad to activate its pointer, then slide your finger on the touchpad to move the pointer onscreen.

Slide horizontally

Slide vertically

Slide diagonally
One-finger gestures

Tap/Double-tap

- Tap an app to select it.
- Double-tap an app to launch it.

Drag and drop

Double-tap an item, then slide the same finger without lifting it off the touchpad. To drop the item to its new location, lift your finger from the touchpad.
Left-click

- Click an app to select it.
- Double-click an app to launch it.

Right-click

- Click this button to open the right-click menu.

**NOTE:** The areas inside the dotted line represent the locations of the left mouse button and the right mouse button on the touchpad.

---

**Two-finger gestures**

**Tap**

Tap two fingers on the touchpad to simulate the right-click function.
**Two-finger scroll (up/down)**
Slide two fingers to scroll up or down.

**Two-finger scroll (left/right)**
Slide two fingers to scroll left or right.

**Zoom out**
Bring together your two fingers on the touchpad.

**Zoom in**
Spread apart your two fingers on the touchpad.
Drag and drop

Select an item then press and hold the left button. Using your other finger, slide on the touchpad to drag the item, lift your finger off the button to drop the item.

Three-finger gestures

Tap

Tap three fingers on the touchpad to invoke Cortana.
Swipe left/Swipe right

If you opened multiple apps, swipe three fingers left or right to switch between these apps.

Swipe up

Swipe up to see an overview of all the apps currently opened.

Swipe down

Swipe down to show the desktop.
Four-finger gestures

Tap

Tap four fingers on the touchpad to invoke Action Center.

Customizing your touchpad

1. Launch **All settings** from the Action Center.
2. Select **Devices**, then select **Mouse & touchpad**.
3. Adjust the settings to your preference.
Using the keyboard

Function keys

The function keys on your Notebook PC’s keyboard can trigger the following commands:

- \[ fn + \text{[F1]} \] Puts the Notebook PC into **Sleep mode**
- \[ fn + \text{[F2]} \] Turns **Airplane mode** on or off
  
  **NOTE:** When enabled, the **Airplane mode** disables all wireless connectivity.

- \[ fn + \text{[F3]} \] Decreases display brightness
- \[ fn + \text{[F4]} \] Increases display brightness
- \[ fn + \text{[F5]} \] Turns the display panel on or off
- \[ fn + \text{[F6]} \] Toggles the display mode

  **NOTE:** Ensure that the second display is connected to your Notebook PC.
Enables or disables the touchpad

Turns the speaker on or off

Turns the speaker volume down

Turns the speaker volume up

Toggles between insert mode and overtype mode

Displays the drop-down menu

**Windows® 10 keys**

There are two special Windows® keys on your Notebook PC’s keyboard used as below:

Launches the Start menu

Displays the drop-down menu*

* On selected models
Rotating the display panel

Your Notebook PC’s display panel is adjustable up to 360 degrees. You may adjust the display panel as shown below.
NOTE: Rotating the screen to Stand, Tent and Tablet mode will disable the keyboard and touchpad.
Chapter 3: 
Working with Windows® 10
Starting for the first time

When you start your Notebook PC for the first time, a series of screens appear to guide you in configuring your Windows® 10 operating system.

To start your Notebook PC for the first time:

1. Press the power button on your Notebook PC. Wait for a few minutes until the setup screen appears.

2. From the setup screen, pick your region and a language to use on your Notebook PC.

3. Carefully read the License Terms. Select I accept.

4. Follow the onscreen instructions to configure the following basic items:
   - Personalize
   - Get online
   - Settings
   - Your account

5. After configuring the basic items, Windows® 10 proceeds to install your apps and preferred settings. Ensure that your Notebook PC is kept powered on during the setup process.

6. Once the setup process is complete, the Desktop appears.

NOTE: All provided screenshots and instructions in this chapter are from Windows® 10 for reference. These may vary depending on your operating system.
Start menu

The Start menu is the main gateway to your Notebook PC’s programs, Windows® apps, folders, and settings.

You can use the Start menu to do these common activities:

• Start programs or Windows® apps
• Open commonly used programs or Windows® apps
• Adjust Notebook PC settings
• Get help with the Windows operating system
• Turn off your Notebook PC
• Log off from Windows or switch to a different user account
Launching the Start menu

Tap the Start button \[\text{Start}\] in the lower-left corner of your desktop.

Position your mouse pointer over the Start button \[\text{Start}\] in the lower-left corner of your desktop then click it.

Press the Windows logo key \[\text{Windows logo}\] on your keyboard.

Opening programs from the Start menu

One of the most common uses of the Start menu is opening programs installed on your Notebook PC.

Tap the program to launch it.

Position your mouse pointer over the program then click to launch it.

Use the arrow keys to browse through the programs. Press \[\text{Enter}\] to launch it.
Windows® apps

These are apps pinned on the right pane of the Start menu and displayed in tiled-format for easy access.

**NOTE:** Some Windows® apps require signing in to your Microsoft account before they are fully launched.
Working with Windows® apps

Use your Notebook PC’s touch screen, touchpad, or keyboard to launch, customize, and close apps.

Launching Windows® apps from the Start menu

- Tap the app to launch it.
- Position your mouse pointer over the app then click to launch it.
- Use the arrow keys to browse through the apps. Press to launch an app.

Customizing Windows® apps

You can move, resize, unpin, or pin apps to the taskbar from the Start menu using the following steps:

Moving apps

- Press and hold the app, then drag and drop it to a new location.
- Position your mouse pointer over the app, then drag and drop the app to a new location.
Resizing apps

Press and hold the app, then tap ... and select an app tile size.

Position your mouse pointer over the app and right-click it, then click **Resize** and select an app tile size.

Use the arrow keys to navigate to the app.

Press \[ Esc \] or \[ fn \] + \[ ctrl \] (on selected models), then select **Resize** and select an app tile size.

Unpinning apps

Press and hold the app, then tap the \[ \] icon.

Position your mouse pointer over the app and right-click it, then click **Unpin from Start**.

Use the arrow keys to navigate to the app.

Press \[ Esc \] or \[ fn \] + \[ ctrl \] (on selected models), then select **Unpin from Start**.
Pinning apps to the taskbar

Press and hold the app, then tap ⋮ > More > Pin to taskbar.

Position your mouse pointer over the app and right-click it, then click More > Pin to taskbar.

Use the arrow keys to navigate to the app.
Press alt or fn + ctrl (on selected models), then select More > Pin to taskbar.

Pinning more apps to the Start menu

From All apps, press and hold the app you want to add to the Start menu, then tap Pin to Start.

From All apps, position your mouse pointer over the app you want to add to the Start menu and right-click it, then click Pin to Start.

From All apps, press alt or fn + ctrl (on selected models) on the app that you want to add to the Start menu, then select Pin to Start.
Task view

Quickly switch between opened apps and programs using the task view feature, you can also use task view to switch between desktops.

Launching task view

Tap the icon on the taskbar or swipe from the left edge of the screen.

Position your mouse pointer over the icon on the taskbar and click it.

Press + on your keyboard.
Snap feature

The Snap feature displays apps side-by-side, allowing you to work or switch between apps.

Snap hotspots

You can drag and drop apps to these hotspots to snap them into place.
Using Snap

1. Launch the app you wish to snap.
2. Drag the title bar of your app and drop the app to the edge of the screen to snap.
3. Launch another app and repeat the above steps to snap another app.

or

1. Launch the app you wish to snap.
2. Press and hold the key, then use the arrow keys to snap the app.
3. Launch another app and repeat the above steps to snap another app.
Action Center

Action Center consolidates notifications from apps and presents a single place where you can interact with them. It also has a really useful Quick Actions section at the bottom.

Launching Action Center

Click the icon on the taskbar or swipe from the right edge of the screen.

Position your mouse pointer over the icon on the taskbar and click it.

Press on your keyboard.
Other keyboard shortcuts

Using the keyboard, you can also use the following shortcuts to help you launch applications and navigate Windows® 10.

- 🎥 Launches **Start menu**
- 🎥 + A Launches **Action Center**
- 🎥 + D Launches the desktop
- 🎥 + E Launches the **File Explorer**
- 🎥 + I Launches **Settings**
- 🎥 + K Launches **Connect** panel
- 🎥 + L Activates the Lock screen
- 🎥 + M Minimizes all currently active windows
Launches **Search**

Launches **Project** panel

Opens the **Run** window

Opens **Ease of Access** menu

Opens the context menu of the Start button

Launches the magnifier icon and zooms in your screen

Zooms out your screen

Opens **Narrator Settings**
Connecting to wireless networks

Wi-Fi

Access emails, surf the Internet, and share applications via social networking sites using your Notebook PC’s Wi-Fi connection.

IMPORTANT! Airplane mode disables this feature. Ensure that Airplane mode is turned off before enabling the Wi-Fi connection of your Notebook PC.

Connecting Wi-Fi

Connect your Notebook PC to a Wi-Fi network by using the following steps:

1. Select the icon from the taskbar.
2. Select the icon to enable Wi-Fi.
3. Select an access point from the list of available Wi-Fi connections.
4. Select Connect to start the network connection.

NOTE: You may be prompted to enter a security key to activate the Wi-Fi connection.
Cellular

Unlock your Nano SIM card and use cellular data from your data plan to connect to the network. To unlock your Nano SIM card, refer to the following steps:

1. Select the icon from the taskbar.
2. Select Cellular, then select Unlock SIM.
3. Enter your PIN to unlock the device and select Next to continue.
You may also unlock your SIM card by using the following steps:

1. Select the icon from the taskbar.
2. Select **Network & Internet settings**.
3. Under the **Network & Internet** option, select **Cellular** then select **Unlock SIM**.
4. Enter your PIN to unlock the device then select **Next** to continue.
Bluetooth

Use Bluetooth to facilitate wireless data transfers with other Bluetooth-enabled devices.

IMPORTANT! Airplane mode disables this feature. Ensure that Airplane mode is turned off before enabling the Bluetooth connection of your Notebook PC.

Paired with other Bluetooth-enabled devices

You need to pair your Notebook PC with other Bluetooth-enabled devices to enable data transfers. Connect your devices by using the following steps:

1. Launch Settings from the Start menu.
2. Select Devices, then select Bluetooth & other devices to search for Bluetooth-enabled devices.
3. Select a device from the list. Compare the passcode on your Notebook PC with the passcode sent to your chosen device. If they are the same, select Yes to successfully pair your Notebook PC with the device.

NOTE: For some Bluetooth-enabled devices, you may be prompted to key in the passcode of your Notebook PC.
Airplane mode

Airplane mode disables wireless communication, allowing you to use your Notebook PC safely while in-flight.

**NOTE:** Contact your airline provider to learn about related in-flight services that can be used and restrictions that must be followed when using your Notebook PC in-flight.

**Turning Airplane mode on**

1. Launch **Action Center** from the taskbar.
2. Select the icon to enable Airplane mode.

or

Press \( fn + x^2 \).

**Turning Airplane mode off**

1. Launch **Action Center** from the taskbar.
2. Select the icon to disable Airplane mode.

or

Press \( fn + x^2 \).
Turning your Notebook PC off

You can turn off your Notebook PC by doing either of the following procedures:

- Launch the Start menu, then select Power > Shut down to do a normal shutdown.
- From the log-in screen, select > Shut down.
- Press alt + Shift + to launch Shut down Windows. Select Shut down from the drop-down list then select OK.
- If your Notebook PC is unresponsive, press and hold the power button for at least ten (10) seconds until your Notebook PC turns off.
Putting your Notebook PC to sleep

To put your Notebook PC to Sleep mode:

- Launch the Start menu, then select Power > **Sleep** to put your Notebook PC to sleep.

- From the log-in screen, select > **Sleep**.

Press `alt` + `f4` to launch Shut down Windows. Select **Sleep** from the drop-down list then select **OK**.

**NOTE:** You can also put your Notebook PC to Sleep mode by pressing the power button once.
Recovering your system

Using recovery options on your Notebook PC allows you to restore the system to its original state or simply refresh its settings to help improve performance.

**IMPORTANT!**

- Backup all your data files before doing any recovery option on your Notebook PC.

- Note down important customized settings such as network settings, user names, and passwords to avoid data loss.

- Ensure that your Notebook PC is plugged in to a power source before resetting your system.

Windows® 10 allows you to do any of the following recovery options:

- **Keep my files** - This option allows you refresh your Notebook PC without affecting personal files (photos, music, videos, documents).

  Using this option, you can restore your Notebook PC to its default settings and delete other installed apps.

- **Remove everything** - This option resets your Notebook PC to its factory settings. You must backup your data before doing this option.
• **Advanced startup** - Using this option allows you to perform other advanced recovery options on your Notebook PC such as:
  - Using a USB drive, network connection or Windows recovery DVD to startup your Notebook PC.
  - Using **Troubleshoot** to enable any of these advanced recovery options: System Restore, System Image Recovery, Startup Repair, Command Prompt, UEFI Firmware Settings, and Startup Settings.

**Performing a recovery option**

Refer to the following steps if you want to access and use any of the available recovery options for your Notebook PC.

1. Launch **Settings** and select **Update and Security**.
2. Under the **Update and Security** option, select **Recovery** then select the recovery option you would like to perform.
Switching to Windows 10 Pro

Windows 10 S is designed for security and performance, exclusively running apps from the Microsoft Store. If you need the features of Windows 10 Pro, you can switch from Windows 10 S to Windows 10 Pro through the Microsoft Store. Refer to the following steps:

**IMPORTANT!** Switching to Windows 10 Pro is one-way. If you make the switch, you won’t be able to go back to Windows 10 S.

**NOTE:** For more details, refer to [https://support.microsoft.com/en-us](https://support.microsoft.com/en-us).

1. Launch **Settings** and select **Update and Security**.
2. Under the **Update and Security** option, select **Activation** then select **Go to Store**.

![Go to Store in Settings](image)

3. In the Store screen, select **Get**, and follow the onscreen instructions to sign in to your Microsoft account.
4. After you successfully sign in to your Microsoft account, select **Install** and follow the onscreen instructions to complete the switch.
Tips and FAQs
Useful tips for your Notebook PC

To help you maximize the use of your Notebook PC, maintain its system performance, and ensure all your data are kept secured, here are some useful tips that you can follow:

• Update Windows® periodically to ensure that your applications have the latest security settings.

• Use an anti-virus software to protect your data and keep this updated too.

• Unless absolutely necessary, refrain from using force shutdown to turn off your Notebook PC.

• Always backup your data and make it a point to create a backup data in an external storage drive.

• Refrain from using the Notebook PC at extremely high temperatures. If you are not going to use your Notebook PC for a long period of time (at least a month), we recommend that you take out the battery if the battery is removable.

• Disconnect all external devices and ensure you have the following items prior to resetting your Notebook PC:
  - Product key for your operating systems and other installed applications
  - Backup data
  - Log in ID and password
  - Internet connection information
Hardware FAQs

1. **A black dot, or sometimes a colored dot, appears onscreen when I turn on the Notebook PC. What should I do?**

   Although these dots normally appear onscreen, they will not affect your system. If the incident continues and subsequently affects system performance, consult an authorized ASUS service center.

2. **My display panel has an uneven color and brightness. How can I fix this?**

   The color and brightness of your display panel may be affected by the angle and current position of your Notebook PC. The brightness and color tone of your Notebook PC may also vary per model. You may use the function keys or the display settings in your operating system to adjust the appearance of your display panel.

3. **How can I maximize my Notebook PC’s battery life?**

   You can try doing any of the following suggestions:

   - Use the function keys to adjust the display brightness.
   - If you are not using any Wi-Fi connection, switch your system into **Airplane mode**.
   - Disconnect unused USB devices.
   - Close unused applications, especially those that take up too much system memory.
4. My battery charge indicator does not light up. What’s wrong?
   - Check whether the power adapter or battery pack is attached correctly. You may also disconnect the power adapter or battery pack, wait for a minute, then reconnect them again to the power outlet and Notebook PC.
   - If the problem still exists, contact your local ASUS service center for assistance.

5. Why is my touchpad not working?
   Press \( fn + \text{的功能键} \) to enable your touchpad.

6. When I play audio and video files, why can’t I hear any sound from my Notebook PC’s audio speakers?
   You can try doing any of the following suggestions:
   - Press \( fn + \text{音量键} \) to turn up the speaker volume.
   - Check if your speakers were set to mute.
   - Check if a headphone jack is connected to your Notebook PC and remove it.

7. What should I do if my Notebook PC’s power adapter gets lost or my battery stops working?
   Contact your local ASUS service center for assistance.
8. **My Notebook PC cannot do keystrokes correctly because my cursor keeps on moving. What should I do?**

Make sure that nothing accidentally touches or presses on your touchpad while you type on the keyboard. You can also disable your touchpad by pressing \( \text{fn} + \text{num lk} \).

9. **Instead of showing letters, pressing the “U”, “I”, and “O” keys on my keyboard displays numbers. How can I change this?**

Press the \( \text{num lk} \) key or \( \text{fn} + \text{num lk} \) (on selected models) on your Notebook PC to turn off this feature and use the said keys for inputting letters.
Software FAQs

1. **When I turn on my Notebook PC, the power indicator lights up but nothing appears on my screen. What can I do to fix this?**

You can try doing any of the following suggestions:

- Force shutdown your Notebook PC by pressing the power button for at least ten (10) seconds. Check if the power adapter and battery pack are inserted correctly then turn on your Notebook PC.

- If the problem still exists, contact your local ASUS service center for assistance.

2. **What should I do when my screen displays this message: “Remove disks or other media. Press any key to restart.”?**

You can try doing any of the following suggestions:

- Remove all connected USB devices then restart your Notebook PC.

- Remove any optical discs that are left inside the optical drive then restart.

- If the problem still exists, your Notebook PC might have a memory storage problem. Contact your local ASUS service center for assistance.

3. **My Notebook PC boots slower than usual and my operating system lags. How can I fix this?**

Delete the applications you recently installed or were not included with your operating system package then restart your system.
4. **My Notebook PC does not boot up. How can I fix this?**
   You can try doing any of the following suggestions:
   
   • Remove all connected devices to your Notebook PC then restart your system.
   
   • If the problem still exists, contact your local ASUS service center for assistance.

5. **Why can’t my Notebook PC wake up from sleep mode?**
   
   • You need to press the power button to resume your last working state.
   
   • Your system might have completely used up its battery power. Connect the power adapter to your Notebook PC and connect to a power outlet then press the power button.
Appendices
DVD-ROM Drive Information

The DVD-ROM drive allows you to view and create your own CDs and DVDs. You can purchase an optional DVD viewer software to view DVD titles.

NOTE: The DVD-ROM Drive is available on selected models.

Regional Playback Information

Playback of DVD movie titles involves decoding MPEG2 video, digital AC3 audio and decryption of CSS protected content. CSS (sometimes called copy guard) is the name given to the content protection scheme adopted by the motion picture industry to satisfy a need to protect against unlawful content duplication.

Although the design rules imposed on CSS licensors are many, one rule that is most relevant is playback restrictions on regionalized content. In order to facilitate geographically staggered movie releases, DVD video titles are released for specific geographic regions as defined in “Region Definitions” below. Copyright laws require that all DVD movies be limited to a particular region (usually coded to the region at which it is sold). While DVD movie content may be released for multiple regions, CSS design rules require that any system capable of playing CSS encrypted content must only be capable of playing one region.

IMPORTANT! The region setting may be changed up to five times using the viewer software, then it can only play DVD movies for the last region setting. Changing the region code after that will require factory resetting which is not covered by warranty. If resetting is desired, shipping and resetting costs will be at the expense of the user.
Region Definitions

Region 1
Canada, US, US Territories

Region 2
Czech, Egypt, Finland, France, Germany, Gulf States, Hungary, Iceland, Iran, Iraq, Ireland, Italy, Japan, Netherlands, Norway, Poland, Portugal, Saudi Arabia, Scotland, South Africa, Spain, Sweden, Switzerland, Syria, Turkey, UK, Greece, Former Yugoslav Republics, Slovakia

Region 3
Burma, Indonesia, South Korea, Malaysia, Philippines, Singapore, Taiwan, Thailand, Vietnam

Region 4
Australia, Caribbean (Except US Territories), Central America, New Zealand, Pacific Islands, South America

Region 5
CIS, India, Pakistan, Rest of Africa, Russia, North Korea

Region 6
China
**Blu-ray ROM Drive Information**

The Blu-ray ROM Drive allows you to view HD (High-Definition) videos and other disc file formats such as DVDs and CDs.

---

**NOTE:** The Blu-ray ROM Drive is available on selected models.

---

**Region Definitions**

**Region A**

North, Central and South American countries, and their territories; Taiwan, Hong Kong, Macao, Japan, Korea (South and North), South East Asian countries and their territories.

**Region B**

European, African, and South West Asian countries and their territories; Australia and New Zealand.

**Region C**

Central, South Asian, Eastern European countries and their territories; China and Mongolia.

---

---

**Internal Modem Compliancy**

The Notebook PC with internal modem model complies with JATE (Japan), FCC (US, Canada, Korea, Taiwan), and CTR21. The internal modem has been approved in accordance with Council Decision 98/482/EC for pan-European single terminal connection to the public switched telephone network (PSTN). However due to differences between the individual PSTNs provided in different countries, the approval does not, of itself, give an unconditional assurance of successful operation on every PSTN network termination point. In the event of problems you should contact your equipment supplier in the first instance.
Overview

On 4th August 1998 the European Council Decision regarding the CTR 21 has been published in the Official Journal of the EC. The CTR 21 applies to all non voice terminal equipment with DTMF-dialling which is intended to be connected to the analogue PSTN (Public Switched Telephone Network).

CTR 21 (Common Technical Regulation) for the attachment requirements for connection to the analogue public switched telephone networks of terminal equipment (excluding terminal equipment supporting the voice telephony justified case service) in which network addressing, if provided, is by means of dual tone multi-frequency signalling.

Network Compatibility Declaration

Statement to be made by the manufacturer to the Notified Body and the vendor: “This declaration will indicate the networks with which the equipment is designed to work and any notified networks with which the equipment may have inter-working difficulties.”

Statement to be made by the manufacturer to the user: “This declaration will indicate the networks with which the equipment is designed to work and any notified networks with which the equipment may have inter-working difficulties. The manufacturer shall also associate a statement to make it clear where network compatibility is dependent on physical and software switch settings. It will also advise the user to contact the vendor if it is desired to use the equipment on another network.”

Up to now the Notified Body of CETECOM issued several pan-European approvals using CTR 21. The results are Europe’s first modems which do not require regulatory approvals in each individual European country.

Non-Voice Equipment

Answering machines and loud-speaking telephones can be eligible as well as modems, fax machines, auto-dialers and alarm systems. Equipment in which the end-to-end quality of speech is controlled by regulations (e.g. handset telephones and in some countries also cordless telephones) is excluded.
This table shows the countries currently under the CTR21 standard.

1 National requirements will apply only if the equipment may use pulse dialling (manufacturers may state in the user guide that the equipment is only intended to support DTMF signalling, which would make any additional testing superfluous).

In The Netherlands additional testing is required for series connection and caller ID facilities.
Federal Communications Commission Statement

This device complies with FCC Rules Part 15. Operation is subject to the following two conditions:

- This device may not cause harmful interference.
- This device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to Part 15 of the Federal Communications Commission (FCC) rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment causes harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by doing one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.

The antenna(s) used for this transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
FCC Radio Frequency (RF) Exposure Caution Statement

**WARNING!** Any changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate this equipment. “The manufacture declares that this device is limited to Channels 1 through 11 in the 2.4GHz frequency by specified firmware controlled in the USA.”

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. To maintain compliance with FCC RF exposure compliance requirements, please avoid direct contact to the transmitting antenna during transmitting. End users must follow the specific operating instructions for satisfying RF exposure compliance.

**RF Exposure Information (SAR)**

This device meets the government’s requirements for exposure to radio waves. This device is designed and manufactured not to exceed the emission limits for exposure to radio frequency (RF) energy set by the Federal Communications Commission of the U.S. Government.

The exposure standard employs a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit set by the FCC is 1.6 W/kg. Tests for SAR are conducted using standard operating positions accepted by the FCC with the EUT transmitting at the specified power level in different channels.

The highest SAR value for the device as reported to the FCC is 1.12 W/kg when placed next to the body.

The FCC has granted an Equipment Authorization for this device with all reported SAR levels evaluated as in compliance with the FCC RF exposure guidelines. SAR information on this device is on file with the FCC and can be found at [www.fcc.gov/general/fcc-id-search-page](http://www.fcc.gov/general/fcc-id-search-page) after searching on FCC ID: MSQTP370QL.
Canada, Industry Canada (IC) Notices

This Class B digital apparatus complies with Canadian ICES-003.

This device complies with Industry Canada license-exempt RSS standard(s).

This device and its antenna(s) must not be co-located or operating in conjunction with any other antenna or transmitter, except tested built-in radios.

Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

The Country Code Selection feature is disabled for products marketed in US/Canada.

Canada, avis d’Industrie Canada (IC)

Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

Le présent appareil est conforme aux normes CNR d’Industrie Canada applicables aux appareils radio exempts de licence.

Cet appareil et son ou ses antenne(s) ne doivent pas être situés près de ou utilisés conjointement avec une autre antenne ou un autre émetteur, exception faite des radios intégrées qui ont été testées.

Son utilisation est sujette aux deux conditions suivantes: (1) cet appareil ne doit pas créer d’interférences et (2) cet appareil doit tolérer tout type d’interférences, y compris celles susceptibles de provoquer un fonctionnement non souhaité de l’appareil.

La fonction de sélection de l’indicatif du pays est désactivée pour les produits commercialisés aux États-Unis et au Canada.
Radiation Exposure Statement

This device has been tested for compliance with IC SAR values at a typical operating near the body. To ensure that RF exposure levels below the levels tested, use accessories with this equipment to maintain a minimum separation distance of 0 cm between the body of the user and the device. These accessories should not contain metallic components. It is possible that the accessories used close to the body that do not meet these requirements are not consistent with the SAR limits and it is advisable to avoid using them.

Déclaration d’exposition aux radiations

Ce dispositif a été testé pour la conformité avec les valeurs SAR à un fonctionnement typique près du corps. Pour assurer que les niveaux d’exposition aux radiofréquences en deçà des niveaux testés, utiliser des accessoires avec cet équipement pour maintenir une distance de séparation minimale de 0 cm entre le corps de l’utilisateur et l’appareil. Ces accessoires ne doivent pas contenir des composants métalliques. Il est possible que les accessoires utilisés près du corps qui ne répondent pas à ces exigences ne sont pas compatibles avec les limites SAR et il est conseillé d’éviter de les utiliser.
Caution

(i) the device for operation in the band 5150-5250 MHz is only for indoor use to reduce the potential for harmful interference to co-channel mobile satellite systems;

(ii) the maximum antenna gain permitted for devices in the bands 5250-5350 MHz and 5470-5725 MHz shall comply with the e.i.r.p. limit; and

(iii) the maximum antenna gain permitted for devices in the band 5725-5825 MHz shall comply with the e.i.r.p. limits specified for point-to-point and non point-to-point operation as appropriate.

(iv) the worst-case tilt angle(s) necessary to remain compliant with the e.i.r.p elevation mask requirement set forth in Section 6.2.2(3) shall be clearly indicated.

(v) Users should also be advised that high-power radars are allocated as primary users (i.e. priority users) of the bands 5250-5350 MHz and 5650-5850 MHz and that these radars could cause interference and/or damage to LE-LAN devices.

Avertissement

(i) Les dispositifs fonctionnant dans la bande 5150-5250 MHz sont réservés uniquement à une utilisation en intérieur afin de réduire les risques d’interférence préjudiciable aux systèmes de satellites mobiles utilisant les mêmes canaux;

(ii) Le gain maximal d’antenne permis pour les dispositifs utilisant les bandes 5250-5350 MHz et 5470-5725 MHz doit se conformer à la limite de p.i.r.e.;

(iii) Le gain maximal d’antenne permis (pour les dispositifs utilisant la bande 5725-5825 MHz) doit se conformer à la limite de p.i.r.e. spécifiée pour l’exploitation point à point et non point à point, selon le cas.

(iv) Les pires angles d’inclinaison nécessaires pour rester conforme à la limite de p.i.r.e. applicable au masque d’élévation, et énoncée à la section 6.2.2 (3), doivent être clairement indiqués.

(v) De plus, les utilisateurs devraient aussi être avisés que les utilisateurs de radars de haute puissance sont désignés utilisateurs principaux (c.-à-d., qu’ils ont la priorité) pour les bandes 5250-5350 MHz et 5650-5850 MHz et que ces radars pourraient créer des interférences et/ou des dommages aux dispositifs LAN-EL.
Radio Frequency (RF) Exposure Information

The radiated output power of the Wireless Device is below the Industry Canada (IC) radio frequency exposure limits. The Wireless Device should be used in such a manner such that the potential for human contact during normal operation is minimized. This device has been evaluated for and shown compliant with the IC Specific Absorption Rate (“SAR”) limits when installed in specific host products operated in portable exposure conditions.

Canada’s REL (Radio Equipment List) can be found at the following web address: http://www.ic.gc.ca/app/sitt/reltel/srch/nwRdSrch.do?lang=eng

Additional Canadian information on RF exposure also can be found at the following web address: http://www.ic.gc.ca/eic/site/smt-gst.nsf/eng/sf08792.html

Informations concernant l’exposition aux fréquences radio (RF)

La puissance de sortie émise par cet appareil sans fil est inférieure à la limite d’exposition aux fréquences radio d’Industrie Canada (IC). Utilisez l’appareil sans fil de façon à minimiser les contacts humains lors d’un fonctionnement normal. Cet appareil a été évalué et démontré conforme aux limites de DAS (Débit d’absorption spécifique) d’IC lorsqu’il est installé dans des produits hôtes particuliers qui fonctionnent dans des conditions d’exposition à des appareils portables.

UL Safety Notices

Required for UL 1459 covering telecommunications (telephone) equipment intended to be electrically connected to a telecommunication network that has an operating voltage to ground that does not exceed 200V peak, 300V peak-to-peak, and 105V rms, and installed or used in accordance with the National Electrical Code (NFPA 70).

When using the Notebook PC modem, basic safety precautions should always be followed to reduce the risk of fire, electric shock, and injury to persons, including the following:

• DO NOT use the Notebook PC near water, for example, near a bath tub, wash bowl, kitchen sink or laundry tub, in a wet basement or near a swimming pool.

• DO NOT use the Notebook PC during an electrical storm. There may be a remote risk of electric shock from lightning.

• DO NOT use the Notebook PC in the vicinity of a gas leak.

Required for UL 1642 covering primary (non-rechargeable) and secondary (rechargeable) lithium batteries for use as power sources in products. These batteries contain metallic lithium, or a lithium alloy, or a lithium ion, and may consist of a single electrochemical cell or two or more cells connected in series, parallel, or both, that convert chemical energy into electrical energy by an irreversible or reversible chemical reaction.

• DO NOT dispose the Notebook PC battery pack in a fire, as they may explode. Check with local codes for possible special disposal instructions to reduce the risk of injury to persons due to fire or explosion.

• DO NOT use power adapters or batteries from other devices to reduce the risk of injury to persons due to fire or explosion. Use only UL certified power adapters or batteries supplied by the manufacturer or authorized retailers.
Wireless Operation Channel for Different Domains

- N. America: 2.412-2.462 GHz (Ch01 through Ch11)
- Japan: 2.412-2.484 GHz (Ch01 through Ch14)
- Europe ETSI: 2.412-2.472 GHz (Ch01 through Ch13)

TV Notices

Note to CATV System Installer—Cable distribution system should be grounded (earthed) in accordance with ANSI/NFPA 70, the National Electrical Code (NEC), in particular Section 820.93, Grounding of Outer Conductive Shield of a Coaxial Cable – installation should include bonding the screen of the coaxial cable to the earth at the building entrance.

REACH

Complying with the REACH (Registration, Evaluation, Authorization, and Restriction of Chemicals) regulatory framework, we publish the chemical substances in our products at ASUS REACH website at http://csr.asus.com/english/REACH.htm.

Macrovision Corporation Product Notice

This product incorporates copyright protection technology that is protected by method claims of certain U.S.A. patents and other intellectual property rights owned by Macrovision Corporation and other rights owners. Use of this copyright protection technology must be authorized by Macrovision Corporation, and is intended for home and other limited viewing uses only unless otherwise authorized by Macrovision Corporation. Reverse engineering or disassembly is prohibited.
Nordic Lithium Cautions (for lithium-ion batteries)

CAUTION! Danger of explosion if battery is incorrectly replaced. Replace only with the same or equivalent type recommended by the manufacturer. Dispose of used batteries according to the manufacturer’s instructions. (English)

ATTENZIONE! Rischio di esplosione della batteria se sostituita in modo errato. Sostituire la batteria con un una di tipo uguale o equivalente consigliata dalla fabbrica. Non disperdere le batterie nell’ambiente. (Italian)

VORSICHT! Explosionsgefahr bei unsachgemäßen Austausch der Batterie. Ersatz nur durch denselben oder einem vom Hersteller empfohlenen ähnlichen Typ. Entsorgung gebrauchter Batterien nach Angaben des Herstellers. (German)

ADVARES! Lithiumbatteri - Eksplosionsfare ved feilagtig håndtering. Udskiftning må kun ske med batteri af samme fabrikat og type. Levér det brugte batteri tilbage til leverandøren. (Danish)

WARNING! Explosionsfara vid felaktigt batteribyte. Använd samma batterityp eller en ekvivalent typ som rekommenderas av apparattillverkaren. Kassa använt batteri enligt fabrikantens instruktion. (Swedish)

VAROITUS! Paristo voi räjähtää, jos se on virheellisesti asennettu. Vaihda paristo ainoastaan laitevalmistajan sousittelemaan tyyppiin. Hävitä käytetty paristo valmistajan ohjeiden mukaisesti. (Finnish)

ATTENTION! Danger d’explosion si la batterie n’est pas correctement remplacée. Remplacer uniquement avec une batterie de type semblable ou équivalent, recommandée par le fabricant. Jeter les batteries usagées conformément aux instructions du fabricant. (French)

ADVARES! Eksplosjonsfare ved feilaktig skifte av batteri. Benytt samme batteritype eller en tilsvarende type anbefalt av apparatfabrikanten. Brukte batterier kasseres i henhold til fabrikantens instruksjoner. (Norwegian)

標準品以外の使用は、危険の元になります。交換品を使用する場合、製造者に指定されるものを使って下さい。製造者の指示に従って処理して下さい。 (Japanese)

ВНИМАНИЕ! При замене аккумулятора на аккумулятор иного типа возможно его возгорание. Утилизируйте аккумулятор в соответствии с инструкциями производителя. (Russian)
CTR 21 Approval (for Notebook PC with built-in Modem)

Danish

"Udstyret er i henhold til Rådets beslutning 98/482/EF EU-godkendt til at blive opkoblet på de offentlige telefonnet som enkeltforbundet terminal. På grund af forskelle mellem de offentlige telefonnet i de forskellige lande giver godkendelsen dog ikke i sig selv ubetinget garanti for, at udstyret kan fungere korrekt på samtlige nettermineringspunkter på de offentlige telefonnet.

I tilfælde af problemer bør De i første omgang henvende Dem til leverandøren af udstyret."

Dutch

"Dit apparaat is goedgekeurd volgens Beschikking 98/482/EG van de Raad voor de pan-Europese aansluiting van enkelvoudige eindapparatuur op het openbare geschakelde telefoonnetwerk (PSTN). Gezien de verschillen tussen de individuele PSTN’s in de verschillende landen, biedt deze goedkeuring op zichzelf geen onvoorwaardelijke garantie voor een succesvolle werking op elk PSTN-netwerkansluitpunt.

Neem bij problemen in eerste instantie contact op met de leverancier van het apparaat."

English

"The equipment has been approved in accordance with Council Decision 98/482/EC for pan-European single terminal connection to the public switched telephone network (PSTN). However, due to differences between the individual PSTNs provided in different countries, the approval does not, of itself, give an unconditional assurance of successful operation on every PSTN network termination point.

In the event of problems, you should contact your equipment supplier in the first instance."

Finnish

"Tämä laite on hyväksytty neuvoston päätöksen 98/482/ETY mukaisesti liitettäväksi yksittäisenä laitteena yleiseen kytkentäiseen puhelinverkkoon (PSTN) EU:n jäsenvaltioissa. Eri maiden yleisten kytkentäisten puhelinverkon välillä on kuitenkin eroja, joten hyväksyntä ei sellaisenaan takaa häiriöötä toimintaa kaikkien yleisten kytkentäisten puhelinverkon välillä liittymisestä.

Ongelmien ilmetessä ottakaa viipymättä yhteyttä laitteen toimittajaan."

French

"Cet équipement a reçu l’agrément, conformément à la décision 98/482/CE du Conseil, concernant la connexion paneuropéenne de terminal unique aux réseaux téléphoniques publics commutés (RTPC). Toutefois, comme il existe des différences d’un pays à l’autre entre les RTPC, l’agrément en soi ne constitue pas une garantie absolue de fonctionnement optimal à chaque point de terminaison du réseau RTPC.

En cas de problème, vous devez contacter en premier lieu votre fournisseur."
German

Falls beim Betrieb Probleme auftreten, sollten Sie sich zunächst an ihren Fachhändler wenden.”

Greek

«Ο εξοπλισμός έχει εγκριθεί για πανευρωπαϊκή σύνδεση μεμονωμένου τερματικού με το δημόσιο τηλεφωνικό δίκτυο μεταγωγής (PSTN), σύμφωνα με την απόφαση 98/482/ΕΚ του Συμβουλίου: ωστόσο, επειδή υπάρχουν διαφορές μεταξύ των επιμέρους PSTN που παρέχονται σε διάφορες χώρες, η έγκριση δεν παρέχει αυτής ανεπιφύλακτη εξασφάλιση επιτυχώς λειτουργίας σε κάθε σημείο απόλυσης του δικτύου PSTN.

Εάν ανακύψουν προβλήματα, θα πρέπει κατ’ αρχάς να απευθύνεστε στον προμηθευτή του εξοπλισμού σας.”

Italian

«La presente apparecchiatura terminale è stata approvata in conformità alla decisione 98/482/CE del Consiglio per la connessione paneuropea come terminale singolo ad una rete analogica PSTN. A causa delle differenze tra le reti dei differenti paesi, l’approvazione non garantisce però di per sè il funzionamento corretto in tutti i punti di terminazione di rete PSTN.

In caso di problemi contattare in primo luogo il fornitore del prodotto.»

Portuguese

«Este equipamento foi aprovado para ligação pan-europeia de um único terminal à rede telefónica pública comutada (RTPC) nos termos da Decisão 98/482/CE. No entanto, devido às diferenças existentes entre as RTPC dos diversos países, a aprovação não garante incondicionalmente, por si só, um funcionamento correcto em todos os pontos terminais da rede da RTPC.

Em caso de problemas, deve entrar-se em contacto, em primeiro lugar, com o fornecedor do equipamento.»

Spanish

«Este equipo ha sido homologado de conformidad con la Decisión 98/482/CE del Consejo para la conexión paneuropea de un terminal simple a la red telefónica pública conmutada (RTPC). No obstante, a la vista de las diferencias que existen entre las RTPC que se ofrecen en diferentes países, la homologación no constituye por sí sola una garantía incondicional de funcionamiento satisfactorio en todos los puntos de terminación de la red de una RTPC.

En caso de surgir algún problema, procede ponerse en contacto en primer lugar con el proveedor del equipo.»

Swedish

"Utrustningen har godkänts i enlighet med rådets beslut 98/482/EG för all europeisk anslutning som enskild terminal till det allmänt tillgängliga kopplade telenätet (PSTN). På grund av de skillnader som finns mellan telenätet i olika länder utgör godkännandet emellertid inte i sig självt en absolut garanti för att utrustningen kommer att fungera tillfredsställande vid varje telenätanslutningspunkt.

Om problem uppstår bör ni i första hand kontakta leverantören av utrustningen.”
ENERGY STAR complied product

ENERGY STAR is a joint program of the U.S. Environmental Protection Agency and the U.S. Department of Energy helping us all save money and protect the environment through energy efficient products and practices.

All ASUS products with the ENERGY STAR logo comply with the ENERGY STAR standard, and the power management feature is enabled by default. The monitor and computer are automatically set to sleep after 10 and 30 minutes of user inactivity. To wake your computer, click the mouse or press any key on the keyboard. Please visit http://www.energystar.gov/powermanagement for detail information on power management and its benefits to the environment. In addition, please visit http://www.energystar.gov for detail information on the ENERGY STAR joint program.

NOTE: Energy Star is NOT supported on FreeDOS and Linux-based operating systems.

Global Environmental Regulation Compliance and Declaration

ASUS follows the green design concept to design and manufacture our products, and makes sure that each stage of the product life cycle of ASUS product is in line with global environmental regulations. In addition, ASUS disclose the relevant information based on regulation requirements.

Please refer to http://csr.asus.com/english/Compliance.htm for information disclosure based on regulation requirements ASUS is complied with:

Japan JIS-C-0950 Material Declarations

EU REACH SVHC

Korea RoHS
ASUS Recycling/Takeback Services

ASUS recycling and takeback programs come from our commitment to the highest standards for protecting our environment. We believe in providing solutions for you to be able to responsibly recycle our products, batteries, other components as well as the packaging materials.

Please go to http://csr.asus.com/english/Takeback.htm for detailed recycling information in different regions.

Rechargeable Battery Recycling Service in North America

For US and Canada customers, you can call 1-800-822-8837 (toll-free) for recycling information of your ASUS products’ rechargeable batteries.

Coating Notice

IMPORTANT! To provide electrical insulation and maintain electrical safety, a coating is applied to insulate the device except on the areas where the I/O ports are located.

Regional notice for California

WARNING

Cancer and Reproductive Harm - www.P65Warnings.ca.gov
Regional notice for India

This product complies with the “India E-Waste (Management) Rules, 2016” and prohibits use of lead, mercury, hexavalent chromium, polybrominated biphenyls (PBBs) and polybrominated diphenyl ethers (PBDEs) in concentrations exceeding 0.1% by weight in homogenous materials and 0.01% by weight in homogenous materials for cadmium, except for the exemptions listed in Schedule II of the Rule.

Notices for removable batteries

• Risk of explosion if battery is replaced by an incorrect type.
• The battery and its component must be recycled or disposed of properly.

Avis concernant les batteries remplaçables

• La batterie de l’appareil peut présenter un risque d’incendie ou de brûlure si celle-ci est retirée ou désassemblée.
• La batterie et ses composants doivent être recyclés de façon appropriée.

Prevention of Hearing Loss

To prevent possible hearing damage, do not listen at high volume levels for long periods.

Power Safety Requirement

Products with electrical current ratings up to 6A and weighing more than 3Kg must use approved power cords greater than or equal to: H05VV-F, 3G, 0.75mm² or H05VV-F, 2G, 0.75mm².
Simplified EU Declaration of Conformity

ASUSTek Computer Inc. hereby declares that TP370QL is in compliance with the essential requirements and other relevant provisions of Directive 2014/53/EU. Full text of EU declaration of conformity is available at https://www.asus.com/support/.

The WiFi operating in the band 5150-5350 MHz shall be restricted to indoor use for countries listed in the table below:

A minimum separation distance of 0 cm must be maintained between the user’s body and the device, including the antenna during body-worn operation to comply with the RF exposure requirements in Europe.

RF Exposure Information

This ASUS product has been tested and meets applicable European SAR limits. The SAR limit is 2.0 W/Kg in countries that set the limit averaged over 10 grams of tissue. The specific maximum SAR values for this device are as follows:

The highest CE SAR value for this device is 1.60 W/Kg.

When carrying this device or using it while worn on the body, either use an approved accessory such as a holster or otherwise maintain a distance of 0 cm from the body to ensure compliance with RF exposure requirements.
