8 DIMM Slots

For each DRAM channel (A,B,C,D), make sure to install the DRAM module to light color slot first.

- **1 DIMM:** Supports one (1) module inserted into any light color slot as Single-channel memory configuration. Install the module into the D1 slot for better compatibility.
- **2 DIMMs:** Supports two (2) modules inserted into one pair of light color slots as one pair of Dual-channel memory configuration. Install the modules into slots B1 and D1 for better compatibility.
- **4 DIMMs:** Supports four (4) modules inserted into four light color slots as two pairs of Quad-channel memory configuration. Install the modules into slots A1/B1/C1/D1 for better compatibility.
- **6 DIMMs:** Supports six (6) modules inserted into four light color slots and one pair of dark color slots as three pairs of Quad-channel memory configurations. Install the modules into slots A1/B1/B2/C1/D1/D2 for better compatibility.
- **8 DIMMs:** Supports eight (8) modules inserted into all the slots as fully-loaded Quad-channel memory configurations.

- Make sure to install the memory modules from the light color slots first.(A1/B1/C1/D1)

- When installing total memory of 4GB capacity or more, Windows 32-bit operation system may only recognize less than 3GB. Hence, a total installed memory of less than 3GB is recommended.

- The default DIMM frequency depends on its Serial Presence Detect (SPD), which is the standard way of accessing information from a memory module. Under the default state, some memory modules for overclocking may operate at a lower frequency than the vendor-marked value

- Always install DIMMs with the same CAS latency. For optimal compatibility, we recommend that you install memory modules of the same version or date code (D/C) from the same vendor. Check with the retailer to get the correct memory modules.

- DIMM fan design may vary, make sure the fan can fit into the motherboard.

* Highly recommended to use 8-DIMM/4-DIMM kit for full DIMM configuration. Full DIMM support is subject to the physical characteristics of individual CPUs or Memory.
